# Alumni Log

Vol. I No. I

June 1927

CUR. PUB. CO.

J  
31926

J. Hanson Mitchell  
President.

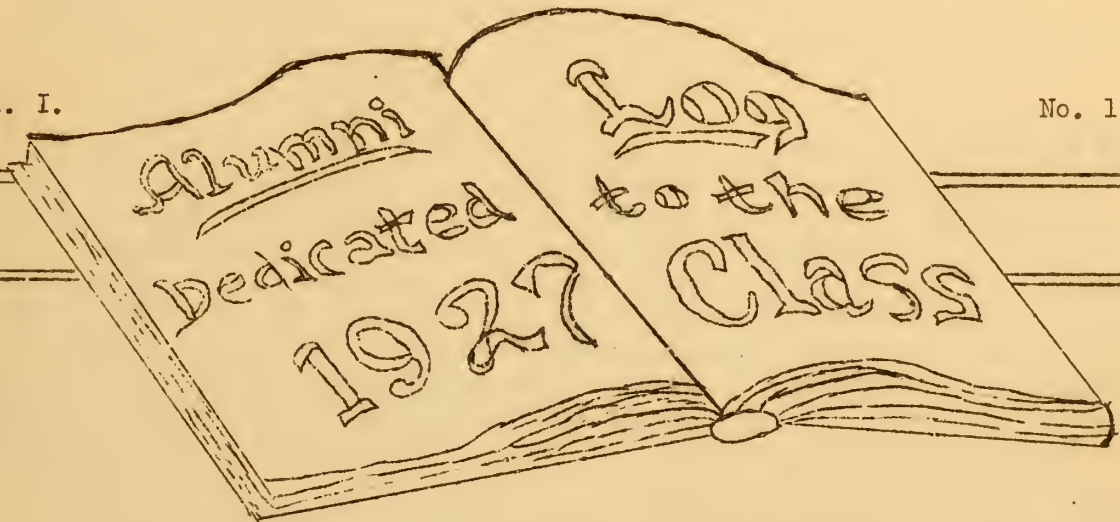

Kenneth Grace  
Vice-President.

T. B. Symons  
Secretary-Treasurer.

"Issued Every Now And Then"

Vol. I.

No. 1.

It has long been the hope of the Alumni that we have some medium through which to exchange ideas and news concerning the work and development of the Institution of which we are a part, and the successes and experiences of each of us who has launched upon life's work. This is a modest beginning. The secretary, with the help of all the Alumni from the College Park Branch of the University, will endeavor to issue this "Log" every now and then. It is your "Log". It will be as interesting, peppy and fresh as you individually and collectively make it.

The "Alumni Log" would prefer to be dressed with printer's ink, but our ship has not come home as yet.

This issue of the "Log" is dedicated to the class of 1927. May these graduates go forth with a will to conquer, and may all members be a force for the upbuilding of the Institution and the Alumni Association, both of which will be vitally interested in their future progress.

In the words of our President, J. Hanson Mitchell, our Association has charted a new course. This course, we hope, will be as direct in reaching our goal as "Lindy's" charted route from New York to Paris. May we be as successful in awakening the potential possibilities of the three thousand worthy alumni of our alma mater in her behalf, and in developing a greater fraternal spirit among ourselves and for ourselves, and in the end, be as worthy of public acclaim as the distinguished hero of New York to Paris fame. May we have from each of you, man and woman, a word giving your correct address, a news item concerning what you are doing, or a word about a classmate from whom you have heard recently.

It is the hope that the office of your secretary can be not only a medium of exchange in fraternal greetings from time to time through the "Log", but that it may be of substantial assistance to all alumni in establishing intimate relations with the Institution and in aiding you in your respective walks of life.

PRESIDENT  
J. HANSON MITCHELL  
SPEAKING  
HELLO EVERYBODY!

THIS IS TO ANNOUNCE that the sturdy ship, U of M, with our good skipper, Mr. Shoemaker, First Mate Dr. Pearson, and the Alumni as Crew, has weighed anchor and laid a new course. Though she may be buffeted by the waves of opposition, manned as she is, nothing will cause her to deviate from her course until she sails safely into port to take her rightful place among the institutions of learning. With a united and progressive Alumni functioning as it should, in perfect harmony, and cooperating with the Board of Regents and Faculty, we cannot be stopped from obtaining our objective; - namely, that the University be supplied with necessary buildings, proper equipment and adequate man power.

YOUR ALMA MATER NEEDS YOU. You should, and do, I am sure, want to see her grow, not in numbers alone, but in the quality of the men and women she turns out. So clear the deck for action; we are about to go into battle. Every man and woman must do his or her duty that success may crown our efforts.

TO THE ALUMNI: -

I am very glad to learn of the increasing interest of the alumni in their Alma Mater. We need your interest, your advice and your support. The best and strongest universities have the best relationships with their alumni.

Our greatest ambition is to do right whatever comes to our hands. I am speaking for all of the officers of the university and I know that this is what the alumni would most desire. We are not thinking of building the biggest or the most expensive university, but we are anxious to have the University of Maryland give to the young people of Maryland the kind of service they are entitled to have, and we are anxious to have our institution engage in research work which will be of the highest value to the taxpayers of the state.

I give great credit to my predecessor, Dr. Woods, and his associates, for the fine things that have been accomplished. I earnestly hope the high standards will be maintained and that the development and growth will continue in a way which will be approved by the citizens of Maryland and the alumni of the university.

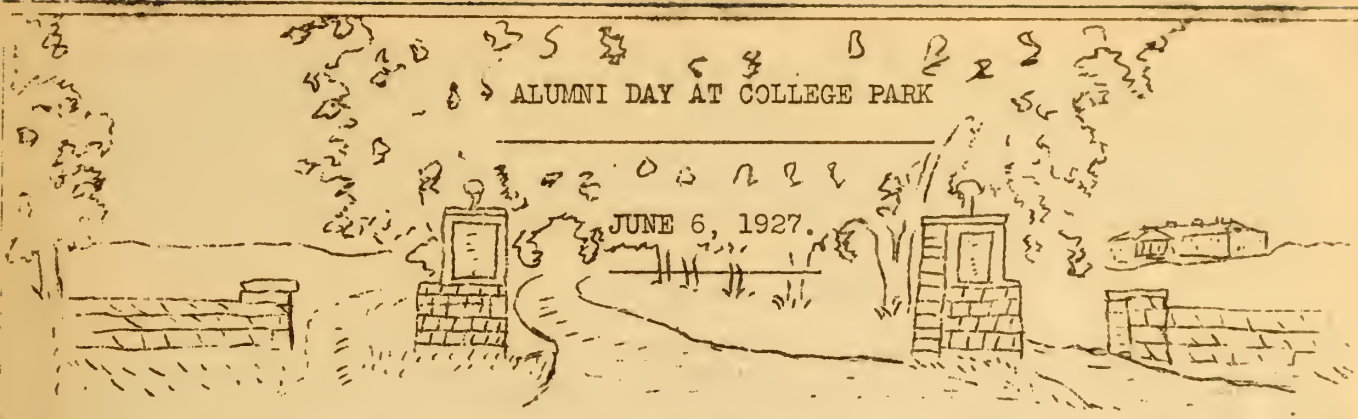

Sincerely yours,

R. A. PEARSON,  
President.

## ALUMNI DAY AT COLLEGE PARK

JUNE 6, 1927.

SAY, that was a CRACKERJACK meeting that our Alumni held at the University on the old college hill in the Physics Laboratory Monday, June 6, 1927. The old and the young, the wise and the foolish, the pretty and ugly, the sophisticated and the unsophisticated, and the rich and poor were all there, about one hundred strong. The new Constitution and By-Laws, which a special committee had been working on and adopted, were read and approved.

A splendid spirit of enthusiasm was in evidence looking toward building up the Association as a mighty force for the institution and its work as well as for individual accomplishment and leadership among men. Several inspiring talks were given and even greenbacks were flirited about in connection with proposals for setting up the Association for active work in the future.

President Mitchell reported on the work of the special committee which has labored on the set-up of the College Park Branch, and explained the work and representation of the Alumni Council.

Mr. W. B. Kemp reported as Secretary-Treasurer, and submitted a statement regarding the finances of the Association, reporting a balance of \$200.97 in the treasury. All members were urged to pay their dues to the Association as follows: - Graduates up to three years out \$1.00 per year, and all others at the rate of \$2.00 per year.

Important discussions were entered into relative to the future of the Association, and valuable suggestions were made regarding the desirability of class reunions and class leaders in the respective counties of the state.

That was SOME speech Reuben Brigham made. It was peppy and had a lot of good sense in it. He urged class reunions, and pointed with pride to his own class reunion, '08, which will be held next year.

It was also fine to hear from Arthur R. Hirst, '02, who had returned to his alma mater looking for members of his class. Unfortunately he and T. B. Symons had to "reune" together. Mr. Hirst made a fine talk in which he urged all alumni to give their hearty support to the Association. Mr. Hirst has made quite a record for himself out in Wisconsin. He has served as Chairman of the State Roads Commission of that state and at one time was a candidate for Governor. At present he is a member of a large contracting concern which is introducing a new patented paving process.

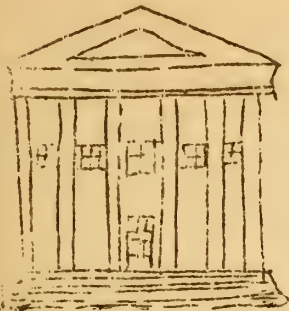

Announcement was made by Curly Byrd of the plans to establish an Alumni Home and Club on the campus. It is hoped to use the old Experiment Station building familiarly known as the Rossburg Club building for this purpose.

The following officers of the Association were elected for the ensuing year: - President, J. Hanson Mitchell; Vice-President, Kenneth Grace; Secretary-Treasurer, T. B. Symons. Members and terms of office of the Alumni

# Campus News

The last remnant of the old barracks destroyed by fire in 1912 is now being removed. A large gang of men and tractors are at work grading and filling in the "hole".

## Commencement Exercises

Nearly 2,000 persons attended the commencement exercises in the gymnasium on June 7. This brought to a close the most successful year the University of Maryland has had. Under the guiding hand of President Pearson, the events planned for commencement week were carried to a successful finish. It was said that the fraternity dances on Saturday night, June 5th, were better than ever; the Baccalaureate sermon by the Rev. G. Warfield Hobbs of New York was very inspiring; the class and alumni day exercises were enjoyed by a large number; the president's reception and the commencement ball on Monday were brilliant affairs. The closing event, when the members of the graduating class were handed their diplomas Tuesday morning, was the climax to the festivities.

Announcement of gifts to the university, amounting to many thousands of dollars, was made by President Pearson. Among them was the pledge of \$1,000 by the class of 1908.

Sir John Russell, the most distinguished agricultural scientist of England, was awarded the Degree of Doctor of Science. Marked recognition was given by the students to Samuel M. Shoemaker, Chairman of the Board of Regents, to whom the annual book was dedicated, and to whom a large silver cup was presented on Tuesday.

The main address at the Commencement exercises was given by Congressman Frederick N. Zihlman. Milford Sprecher gave the valedictory address.

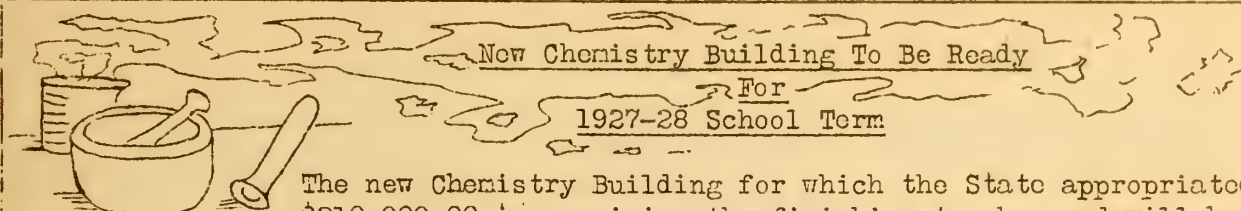

Dr. F. B. Bomberger, '94, Assistant Director of the University of Maryland Extension Service and Chief of the State Department of Markets, has been granted a year's leave of absence by President Pearson to become Director of the Marketing Bureau, Del-Mar-Va Eastern Shore Association, with headquarters at Salisbury, Md. Dr. Bomberger assumed his new duties following a three-week's first hand investigation of cooperative farm organizations which took him to the Pacific Coast.

Three Chinese students were enrolled during the 1926-27 term. All expect to return to China to give the home folks the benefit of their knowledge of American ideas and ideals.

New Chemistry Building To Be Ready  
For  
1927-28 School Term

The new Chemistry Building for which the State appropriated \$210,000.00 is receiving the finishing touches and will be ready for use in September. This building is a four-story structure, measuring 105 x 76 feet, fronting south on the campus, in line with the new Agricultural building. The laboratories, of which there are eleven, are roomy and are to be outfitted with the most modern laboratory equipment at a cost of approximately \$27,000.00

This equipment was made possible from donations received from a number of public spirited citizens interested in our University. In securing these donations the alumni did their part by donating \$2,000 to equip a laboratory to be known as the Alumni Laboratory. This laboratory will be occupied by the Industrial Chemistry Department, and is located on the first floor, west wing of the building.

Rural Women's  
Short Course

About 450 rural women attended the Fifth Annual Rural Women's Short Course at the University June 13-19. The Short Course has proved a helpful factor in making the University and its work known throughout the state. Many of the Alumni were represented in this group by their wives.

- - - - -

Mr. E. I. Oswald, '08, county agricultural agent in Worcester County for the past nine years, has been granted a year's leave of absence and has accepted the position of District Agent for the University of Maryland Extension Service with headquarters at College Park.

W H O R E M E M B E R S

Having stolen apples only to have the all-too-alert O.C. take them in charge? Temptation has now been removed from the path of the present student body for recently the old apple trees back of "Cabs" house and down by the old tobacco barns have been dynamited. As a matter of information "Cabs" house is now known as Gerneaux Hall.

- - -

A certain Halloween night at College Park? The enforcers of the law of Prince Georges County, Maryland, are anxious to secure information from the Alumni who attended college 1910-11 concerning an electric car that was forcibly taken from its rightful directors and driven by Halloween night revelers from Berwyn to Hyattsville. Records show the names of only three persons in connection with this instance. The authorities feel certain there must have been at least forty in the group.

## C L A S S   R E U N I O N S

At the recent meeting of the Alumni Association, it was decided that a regular system of class reunions should be adopted. Details of this system will appear in the next issue of the "Log".

-----  
'12 Class            Those members of the '12 Class who were within easy reach of the University had a social get-together on the campus on Alumni Day, Monday, June 6. The following members were present: - W. A. Furst, J. N. Lednum, C. Linhardt, Jr., N. R. Wathen, S. C. Dennis, W. B. Kemp and R. L. Tolson.

The most important item of business held over from this meeting is the effort of Mr. Dennis to secure a complete list of correct addresses of the class members. It is hoped that members who have recently changed their address will send it at once to Mr. Dennis.

-----  
'17 Class            Out of 31 members, 16 were present at the reunion on June 6. All members who are married were accompanied by their wives. The members present had luncheon together and later attended the alumni dinner and dance. Harvey B. Derrick is president of the class. Fred Korf, as secretary of the class, was largely instrumental in making arrangements for the reunion which was pronounced a "howling" success.

-----  
'08 Class            The class of '08 held its nineteenth annual meeting in Curly Byrd's office on June 6, following lunch in the University Dining Hall. The Silvester award, a gold watch offered annually by this class to the student typifying the best in athletics was presented for inspection by Curly. M. B. Stevens received the award this year.

A Committee consisting of L. B. Broughton, Chairman, C. W. Sylvester and H. C. Byrd reported on plans for the celebration of the Twentieth Anniversary of the class on June 4, 1928. It was voted to invite the wives of the members of the class to attend the anniversary banquet, and it was also voted to subscribe \$1000 toward an endowment fund for the College Park Branch of the University, the committee having this matter in charge being - President Somerville, H. C. Byrd and Secretary Brigham.

Those in attendance at the meeting were L. B. Broughton, H. C. Byrd, Reuben Brigham, H. B. Hoshall, E. I. Oswald, E. M. Paradis, W. A. S. Somerville, C. W. Sylvester and C. A. Warthen.

### THE NEWLY WEDS

Among the recent benedicts are the following: - Jimmie Stevens, '20, married June 2; Jimmie will be recalled as one of the most outstanding lacrosse and football men at College Park; "Pop" Winant, '17, married Commencement Week; Dr. Jennifer, '02, married on June 7; Austin C. Diggs, '21, married at the home of his bride's parents in Aberdeen, Md.; Austin is in the brokerage business in Baltimore.

# WANTED

## BOOSTERS - For the Alumni Association.

Help make your Alumni Association really worthwhile. It needs your moral support, and it must have your financial support to perform the service for Old Maryland that it is capable of doing.

OPPORTUNITIES for the columns of the "Alumni Log" to serve alumni who are seeking positions, or those who have positions to be filled.

Send in your "Want Ad". It will be printed without attaching your name. If you are desirous of securing a position, perhaps another fellow alumnus has available just what you are looking for, or knows of an opportunity for you.

If you are familiar with the address of any of the following alumni, please send it to the Secretary at once, as mail addressed to them marked "unclaimed" has been returned to this office:

Wilfred E. Froelich; W. K. Robinson; H. B. Brydon; J. W. Lawson; Richard E. Sliger; Sarah Olive Wallace; H. D. Willis; M. L. Pusey; Ernest C. Dunning.

## GENERAL NEWS ITEMS

JOHN MACKALL, Class '05, Chairman of the Maryland State Roads Commission and Chief Engineer was back for Commencement. We are all proud of the splendid accomplishments of this distinguished member of the class of '05. Mackall is a "friend indeed" at this time of "need" in securing good roads for the campus.

WALTER K. GRIGG, Class '18, who has been instructor in bacteriology at Albany Medical College, received his M.D. from that institution on June 13th.

Toddy Riggs, '20 Class, who will be remembered as a football star and who played on the best baseball team Maryland has had, has been made head coach of our old rival, St. Johns College, after serving as Athletic Director at the Suffolk, Virginia High School.

Florence E. Besley, Class of '24, is now Director of Health Education of the Oregon Tuberculosis Association. Her address is 310 Fitzpatrick Bldg., Portland, Oregon.

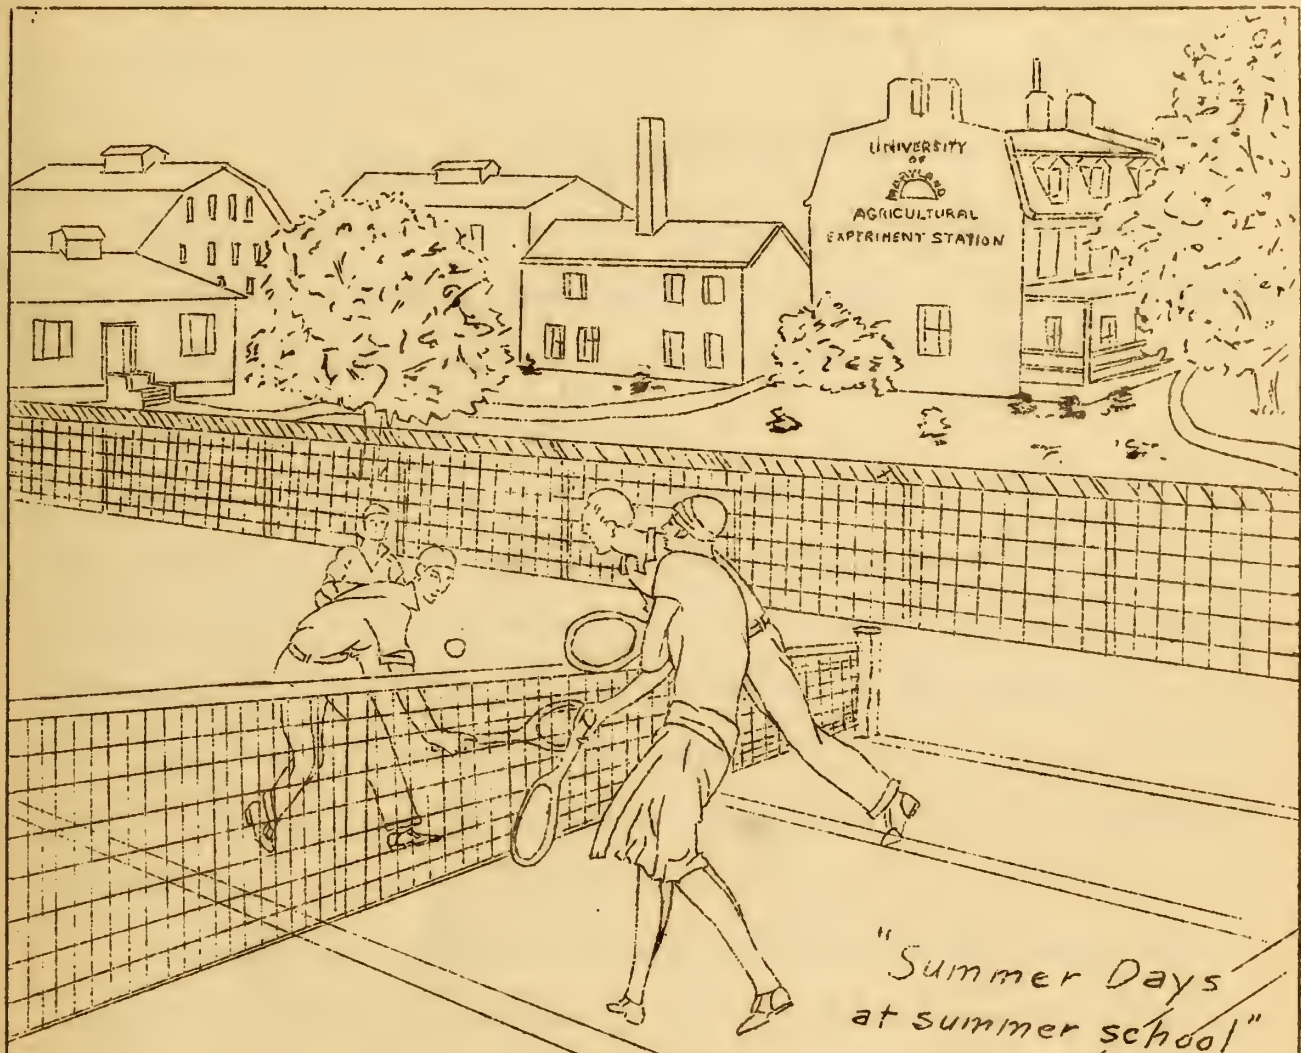

Major O. H. Saunders, Class of '10, was a recent visitor on the campus. Major Saunders is just completing a special course of instruction at the War College in Washington, D. C. and will soon take up his new duties as Commanding Officer at Fort Washington, Maryland.

VOL. I

No. 2

When the days are long and hot; when those around us are planning and leaving for vacations; when business is lagging and our expected sales do not come through; then it is you've got to mix a lot of will with the right amount of skill and keep going.

When the wife is away at a summer resort and the coffee is cold in the morning and the bacon and eggs do not taste right; when the house is hot and lonely and not well kept; then it is that you must be on your guard and not get wet from perspiration induced by ugly inspiration.

When this old "Log" is not just right, don't put it out of sight, but roll it over and cut a chip and post it back. You will be gratified that you did just right to let a brother know your act.

Now, when these chips are brought together in another "Log", many souls will be drawn to each other by your writing just a letter that will make you feel much better than before. Thus, the "Log" will take another roll over hill and vale hoping it may bring you just a word from Alma Mater. She is always wishing to receive a record of achievement or a note advising you are moving and will join the grand, old chorus by and by. Now, just tune in on Page Two and listen to what "Curly" plans to do.

How would you like to hear something about  
"ATHLETICS DURING THE 1927-28 SEASON"? Well, here goes.

Athletics during the next scholastic year will find the University of Maryland engaging the best teams in the country, as has been the case for quite a while; the football schedule will take the team from Yale to the University of Florida, and in baseball and basketball, track and lacrosse the biggest institutions are to be met.

The football season will open at College Park with Washington College, and then will follow consecutively games with South Carolina, North Carolina, Virginia, Polytechnic Institute, Virginia Military Institute, Washington and Lee, Yale, Virginia, Vanderbilt, Hopkins and Florida.

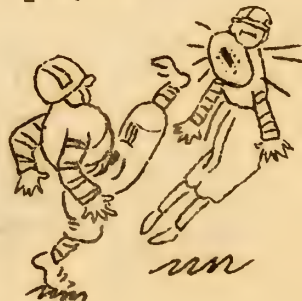

Basketball will find games being played between Maryland and the biggest universities in the South, and also the University of Pennsylvania.

Baseball games are to take place with Yale, Princeton and other big schools.

Of primary importance, however, in athletics for next year is football, and naturally the question is, what kind of a team are we going to have? It is difficult at any time to predict the strength of a football squad for there are varying factors; injuries to certain men, scholastic failures and other things may upset calculations. But if none of these things happen next fall, our university is going to be represented by a good team, a team hard for any of its opponents to whip. Stevens is lost by graduation; he will be missed; the same is true of Dent at end, but barring these two positions left open by these men, there is no reason to believe that every other position will not be just as well taken care of as it was a year ago, and perhaps better. Some rather good material comes up from the freshman team, but the team next fall is pretty sure to be made up of regulars of last fall's substitutes with the freshmen players of 1926 coming along for the following year.

The football schedule is :-

Sept. 24, Washington College at C.P.; Oct. 1 S.C. at C.P.; Oct. 8 N.C. at Chapel Hill; Oct. 15 Va. P. I. at Norfolk; Oct. 22 Va. M. I. at Richmond; Oct. 29 Washington and Lee at C.P.; Nov. 5 Yale at New Haven; Nov. 12 Virginia at Charlottesville; Nov. 19 Vanderbilt at Nashville; Nov. 24 Hopkins at Baltimore; Dec. 3 Florida at Jacksonville.

# THE RAYBODY!

It is a very old story, but it is a story that is still true. It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man.

Yale, Princeton, Harvard, and other great universities. It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man.

It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man.

It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man. It is a story of a man who was born in a poor family, but who became a great man.

"Many College Park Alumni,  
now located in Baltimore,"  
Says Kenneth Grace, Vice-President  
of our Alumni Association.

"It is surprising to learn how many College Park alumni are now located in Baltimore, the metropolis of our State", says Kenneth Grace who is associated with the Continental American Life Insurance Company at 617 Continental Bldg., Baltimore, Md., "and yet", he continues in a recent communication to the Secretary of the Alumni Association, "one should expect to find that Baltimore, one of the largest and most important industrial centers in our country, offers many advantages to college graduates. You may be interested in the following information regarding some of our College Park alumni who are now engaged in various lines of industry in Baltimore."

"Howard Buckwald, '15, President of the Lincoln Motor Sales Co., is located at 1130 Cathedral Street, selling tires, accessories and wholesaling radio supplies.

"Talbot T. Speer is President of the Baltimore Salesbook Company at 3132 Frederick Avenue.

"C. Webster Abbott, '21, is Vice-President of C.W. Abbott Co. at 206 S. Charles St., manufacturing 'Abbotts Bitters' on the market many years.

"Joe Johnson, '17, Treasurer of the Sanitary Reduction Co., 410 Continental Bldg.

"Clinton Johnson, brother of Joe, in business with his father in the Morris Bldg. Their company is known as 'The J.G.J. Development Co.'

"Wm. (Hap) Carroll lives at Towson and sells real estate for G.W. Abell Co., Munsey Bldg.

"Wm. Groff owns a coal and feed business at Owings Mills.

"E.G. Knatz, '16, is working for the Standard Oil Co. at 1105 Standard Oil Bldg.

"Samuel Wallace, '17, owns a storage garage at 2207 - 2209 Madison Ave.

"Keith Compton was last heard from at Pulaski, Va.

"Peck Davis, '13, is an estimator for John Hilts & Sons Co.

"Walter P. Cole, lawyer, has returned from Florida and is located at Towson.

"Bill Stinson owns a garage at Glenwood."

Editor's Note: It is hoped that similar items of interest regarding the "doings" of our alumni will be sent in from time to time for publication in the "Alumni Log".

James M. Smith  
Secretary of the Board

Dear Sir:  
I have the honor to acknowledge the receipt of your letter of the 10th inst.

and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,  
Yours, very truly,  
James M. Smith

# PERSONALS

Mordecai Ezekiel, '18, is teaching Agricultural Statistics at Cornell Summer School this year.

Sarah Wallace, '26, is now Mrs. Austin McBride. Their address is in care of Mr. Robt. Wallace, R.F.D.#2, Landover, Md. At this time they are attending Columbia Summer School.

Bertha Ezekiel Kohner, '22 (Mrs. Maurice Kohner) will be located after August 1st at 1236 Malvern Ave., Pittsburgh, Pa.

Thomas B. Long, '14, recently built a fine new brick home on the road leading from Marion to Crisfield, Md.

Pete Chichester, '19, was a recent visitor to the campus. Pete is just celebrating his first wedding anniversary as just one year ago he married Miss Lila Ward Koonce of Wilmington, N.C. They live at Frederick, Md. where Pete has his headquarters as Sales Manager for Dietrich and Gambrill, a concern interested in the manufacture of feeds.

A.W.Hines, '22, is Field Engineer for the Samuel J. Prescott Co., building contractors of Washington, D. C.

J.W.Milles, '25, W.F.Troxell, '25, A.E.Bonnett, '26, J.H.Bittner, '27, W.H.Elgin, '27 and C.E.Boteler, '27, are with the Pennsylvania Highway Dept. Julia Louise Behring, '27, sailed for Europe on July 2nd.

Betty Roberts, nee McCall, '22, is now visiting her old home at College Park. She is accompanied by her young son.

Minnie Hill, '25, is spending the summer at Camp Greenwood, N.J., a summer camp for girls, where she is serving as secretary to the head instructor.

W.B.Montgomery, '23, is Assistant Engineer with the Bureau of Buildings and Public Parks of Washington, D. C.

Nellie Buckey, '25, is taking advance work at Hopkins this summer. Later she will assume some duties in connection with the position held by Miss McNaughton in Home Economics Education at College Park, while Miss McNaughton is away on a leave of absence.

P.G.Busck, '22, mechanical engineer with the Lehigh Portland Cement Company at Allentown, Pa. is making good progress in his work.

F. A. Bennett, '23, is now with the City Engineer's office at Pontiac, Michigan.

Ellen Jane Keiser, '27, has a fellowship to the New York School of Retailing. She will receive her Masters Degree in textiles at the completion of her work at that institution.

Polly Savage, '26, is now teaching Business English at the Washington School for Secretaries in Washington, D.C. Polly got her Masters in June.

R. B. Thomas, '21, is with D.J.Howell & Sons, landscape architect, at Washington, D. C.

Ruth McRae, '27, is now managing the "College Inn", a tea room recently opened up by Dr. Mark Welsh and Mrs. Welsh who are members of the faculty at College Park.

Kathryn Stevenson, '27, will teach during the coming winter in her home town, Oakland, Md.

F.H.Rogers, '25 is Assistant to the Superintendent of the Electric Meter and Installation Dept. of the Consolidated Gas Electric Light & Power Company of Baltimore, Md.

# JUST MARRIED

E. W. Montell, class '14, was married on June 22nd to Miss Helen Horsey at Dover, Dela. "Montie" is now associated with The Campbell Soup Company with headquarters at Dover.

Elsie Orme, class '25, married Felix Lagasse at Rockville on June 21st. They are planning to live at the University of Delaware where "Hap" will be a member of the faculty during the coming year. "Hap" got his Masters at Maryland in 1925.

On June 16th, Thos. Chadwick Kelley, '26, was married to Miss Catharine Elizabeth Merrill at Detroit, Mich. After September 1st, their address will be Pleasant Hill Farms, Germantown, Md.

Eugenia Clement, class '26, who received her Masters at Maryland in '27, was married recently.

William Coney, Jr. married Miss Myrtle Lee on June 25th at her home 718 Colorado Ave., Roland Park, Baltimore, Md.

Kenneth Chappel married Miss Irene Russell on July 2nd at Washington, D. C. He is now a lieutenant in the Marine Corps stationed in Nicaragua. Minnie Hill, '25, served as bridesmaid at this wedding.

Robert McColney, '21, was married to Miss Ruth Elizabeth Arrington of Claremont, Virginia on June 27th.

## "OUT OF COLLEGE JUST ONE MONTH" By "G. C."

"So it's my impression of "out of college" life you are wanting me to give, is it? My honest opinion? Then let the blood be on your head; here goes. OUT OF COLLEGE JUST ONE MONTH! What a relief - no more unannounceds, no more finals and now plenty of time to read a good story "when the spirit moves". This is the life! This FREEDOM! The world is ours. But say - I'd forgotten something. Why was it we felt so blue on graduation day? That had slipped my mind. "Goodbye", "Good luck", "If I never see you again - -". To realize that this time you are not joking. Say, that did give a tug at your heart strings. Friends of four years - gone like the passing of a cloud beyond the horizon. Sad, wistful little thoughts - they must not often be remembered - we must think of our reunion next graduation day. DIGNITY? Yes, we still have it. On June 6, 1927, we grew up. The reputation of our old Alma Mater is resting on our shoulders along with those other old graduates we have looked up to so proudly - Governor Ritchie, 'Chief Tydings', 'Bill Cole', John Mackall and many others; will their equal be found among us? As we review our class roll, we know we need not worry; class of '27 will make its mark - for Maryland. Other universities may be larger, older, of greater prestige, but our graduates never fail, and we will not fail MARYLAND."

# LETTER

My dear Sir,  
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above matter.

I am sorry to hear that you are not satisfied with the result of the investigation. I have, however, done my best to ascertain the facts of the case, and I believe that the information I have furnished to you is as complete and accurate as possible.

Very respectfully,  
J. H. [Name]

I am, Sir, very truly,  
Your obedient servant,  
J. H. [Name]

VOL. I.

No. 3

My! how the years roll by! It seems but a little while ago to some of us when we were undergoing experiences that we can always recall vividly and with more or less pleasure.

Who does not remember his first night in the old barracks at M. A. C? Who does not remember his first week? Who does not remember his room mates even during the four years? Who does not remember the trials and tribulations of class room work and the joys and pleasures throughout his stay on College Hill?

To every one of the older Alumni the view of the old barracks on the first page of the "Log" will recall a different picture. For all of us it will recall the personality of President R. W. Silvester and his able associates on the faculty at that time. It will recall lasting friendships for while we may have been separated from those friends of our young manhood, it is usually those early friendships that are most lasting and most highly cherished.

The old barracks where we lived (shall we say very scrupulously, for who does not remember the officer of the day and the inspection after reveille) recall many experiences that can never be duplicated, but remain as gems in our memory of happy days at M. A. C. The military system of those days was some system we old ones will all agree. Perhaps it is best not to relate our experiences in this field. We can say, however, that the pride of the battalion of those times, reaching down to the last private in the rear rank, is not excelled by those in the regiment of today.

All hail the great developments of our Alma Mater, the new fine buildings, the enlarged student body, the capable President and faculty and the hundred and one other improvements since the days of yore! But the spirit is no greater, the love no dearer, the friendships formed no more lasting and the loyalty to the old college no purer than to those of us who passed in and out of the old barracks that were reduced to ashes in 1912.

Remember, Fellow Alumni, we are missing something dear in life if we are not enjoying the friendships made during our college days. Let us have more class reunions, let's get together this winter in every city and regional section and talk it over. There is much that each of us can do to help the Institution that gave us our major start in life.

THE UNIVERSITY OF CHICAGO

 tenth of these is the fact that the

If the enthusiasm at the last annual meeting of the Alumni Association accomplished nothing more, the "Alumni Log" is sufficient. In a Brief and entertaining way, it visualizes memories of the past; renews old friendships, and for the first time to many of us, tells of the success in life of many whom we have heard nothing of since graduation; acquaints us with present day activities at the University, and of utmost importance, releases the schedule of future athletic events far enough in advance to assure attendance by the Alumni in a number commensurate with that expected from a live, interested body, as we should be.

This is the kind of service the Alumni Association needs. There is not a man or woman upon graduation who does not solemnly pledge allegiance to his or her Alma Mater, and accept as an obligation for all future time, the giving of time, energy and money if need be, to assure its future development. This attitude, while not deliberately ignored, leaves but a small percentage who seem to remember and put their good resolves into practice. Recalling the old days when but three buildings stood "on the hill", it is marvelous to witness the tremendous growth of today and to learn of all the future promises. The Alumni Association is proud of this progress and justly deserves some praise for the part its members have played in bringing it about.

With the assurance that the completed building plan at College Park will provide for permanent Alumni quarters of no mean proportion, we should rededicate ourselves to a renewed interest, through class reunions at regular scheduled intervals; attendance at Athletic events and Alumni functions; and immediate formal matriculation with the Alumni Association. This will effect an organization attractive to every graduate and of immeasurable benefit to the University.

Handwritten text at the top of the page, possibly a title or header, which is mostly illegible due to fading and bleed-through. Some words like "The" and "of" are faintly visible.

First paragraph of the main body of text. It begins with "The" and continues with several lines of faint, mostly illegible handwriting.

Second paragraph of the main body of text. It starts with "The" and contains several lines of very faint, illegible handwriting.

Third paragraph of the main body of text. It begins with "The" and continues with several lines of extremely faint, illegible handwriting.

# PERSONALS

Miss Helen Avery, '22, is in charge of commercial seed testing for the Western Commercial Seed Laboratory, 317 Produce Building, Los Angeles, California.

Mr. E. A. Scott, is Acting Manager of the Tenn. Mineral Products Co., Bristol, Tenn. This firm grinds feldspar and has plants at Bristol and Spruce Pine, N. C.

Mr. Frederick Slanker, '21, is now located in the New York office of the General Counsel, Bureau of Internal Revenue.

Buck Berlin, '19, is consulting engineer of Boone County, W. Va. In addition he has the sales agency for the Buick Motor Car. He is married, looks prosperous and is very satisfactorily located.

The Secretary happened to meet Mr. James P. McComas the other day. He was a member of the class of 1918, but was compelled to leave the Institution in '16. He has made quite a success in his work, representing the great Mack truck. He recalled many pleasant experiences while at Maryland University and expects to come to see us.

E. P. Russell, '22, is teaching mechanical drawing at Central High School. In order to make the annual exhibit of these drawings available to a larger public, they were placed on exhibition this year at the National Museum.

E. E. McKeige, '26, is with the General Electric Company at Schenectady, N. Y.

R. T. Chesnut, '24, engaged in <sup>railroad</sup> electrification in New York City, is with the Gibbs and Hill Company.

W. B. Hill, '24, is with the Florida East Coast Railway and located at St. Augustine.

K. F. Spence, '27, is with the Funkhouser Company at Hagerstown, Md. This company operates a number of granite mines in different parts of the country.

C. P. McFadden, '26, is with the City Engineer's office at Huntington, Long Island, N. Y.

E. B. Marks, '27, is with the American Bridge Co., at Pittsburg, Pa.

J. E. Revelle, '26, and C. P. Glover, '26 are with the Riter-Conley Co., at Pittsburg, Pa. They were recently joined by H. J. Easter, '27, and S. D. Glover, '27.

J. H. Brayton, '26, is with the Johnson Construction Company engaged in subway construction in New York City.

E. S. Thompson, '26, is with the General Electric Company at West Lynn, Mass. He is taking a training course, after which he expects to enter Massachusetts Institute of Technology, under the auspices of the General Electric Company and receive a M. S. degree.

A. B. Fisher, '26, is with the Koppers Construction Company at Pittsburg, Pa.

W. H. Young, '24, who is with the U. S. Patent Office, recently received an L. L. B. Degree. He expects to engage in the practice of patent law.

# Greetings From China

Just received a note from the Rev. Preston L. Peach who is now located at Penang, Straits Settlement, China. He received the notice of our last Alumni meeting and stated that he would like to have been at the meeting.

He asked that his greetings be extended to all '03 men, particularly Walls, Collier and Garner. He also sends his greetings from this far away land to all graduates.

All of us remember Preston as being an outstanding man and it is good to have a message from him. He is doing a great work in behalf of the church in foreign lands. Preston states that he will be glad to hear from any of his classmates and friends.

## R E C E N T V I S I T O R S

Otis Twilley, '21, Hurlock, Md., who made a name for himself breeding disease resistant tomatoes, is now with the Burpee Seed Company. He is selling seed for them and canvasses that part of the United States East of the Mississippi River. He visited College Park the other day to renew old acquaintances.

J. F. Allison, '09, Petersburg, Va., was a recent visitor to College Park. Allison always stops when passing through this way. He is manufacturing trunk hardware in Petersburg.

Major Lindsey Silvester, '11, completed officers instruction at Fort Benning, Ga., and stopped on his way to New York, where he is stationed as Post Commander at Fort Wadsworth.

H. M. Carroll, '20, H. R. Shoemaker, '17, T. D. Holder, '23, and G. R. Stuntz, '19, were at the University during the period of August 4th to 9th assisting in the Boys' and Girls' Club Week.

Mr. C. E. Soles, class of 1890, now located at 3311 Versailles Avenue, McKeesport, Pennsylvania, visited the Institution on August 10th to take another look at this beloved Alma Mater.

\*\*\*\*\*

ALL ALUMNI WILL RECEIVE A WELCOME AT THE UNIVERSITY OF MARYLAND.

*[Faint, illegible text, possibly bleed-through from the reverse side of the page]*

*[Faint, illegible text, possibly bleed-through from the reverse side of the page]*

*Kenneth Grace  
says,*

"Benjamin Parran is at St. Leonard, Md. He is still a bachelor farmer, running a hotel on the side at Solomons Island.

"Frank Hoeffecker, '14, is a civil magistrate near Colgate, Md. When not deciding who is "agin the law and who ain't", he is working for Bethlehem Steel. His home address is 801 F. St., Sparrows Point, Md.

"Old man Vivian Roby, '12, is a professor at Baltimore Polytechnic.

"Norman Clark, '12, is principal of Clifton High School, Baltimore, Md.

"A trip to the Consolidated Gas and Electric Company's Plant on Monument St., Baltimore, Md., will reveal Hedley Clark, '15, and "Reds" McLean, '16, in the same room engaged in engineering work.

"Dr. "Jawn" Donnet, '17, has a going drug store at the corner of Brentwood and Fifth Avenue, Colgate, Md.

"Bill" Grace, '12, announces the arrival of a 1927 model. It's a boy! Bill is supervisor for the Pennsylvania Railroad with office at Clayton, Delaware and home at Smyrna, Delaware.

"Bill" Gemeny, '17, is farming below Boarman, Maryland, raising a lot of chickens and children on the side. Lookout! He may be a big butter and egg man soon.

"Frank Hamill is a Civil engineer with the Mullen Construction Company of Baltimore, Md. He is in charge of the work on the Plaza where the town hopes to have an attractive sunken garden soon.

"Do you remember "Jack" O'Conner, '12? Well, he is employed by a subsidiary of the Standard Oil Company with headquarters in one of the New England States. Recently he left on a trip for the company around the world and is expected to be gone fifteen months.

"Joe" Coster, '15, is selling steel for the Bethlehem Steel Company with headquarters in the Continental Building, Baltimore, Maryland.

"Jimmy" Moss, is with his father in the florist business at 5315 York Road, Baltimore, Md.

"Kercheval E. Smith, '16, the boy that used to write jokes on his cuff, is with the Wm. G. Scarlett Company at 729 East Pratt St., Baltimore, Md.

"Russell B. Strite, '26, 1627 Edmonston Avenue, Baltimore, Md., is married to Miss Nichols of Wash., D. C. He is at present with the General Electric Company and may be reached at 5 Washington Avenue, Schenectady, N. Y. "

CHIPS OFF

THE OLD BLOCK

Henry Holzapfel, '93, of Hagerstown, Md., has two sons on the campus at present. Henry has reason to be proud of his two "chips".

Bob McCandlish of Hancock, MD., has a young "Bob" who will graduate in 1930 from Maryland U.

Lawrence Bomberger, son of Dr. F. B. Bomberger, class of '94, has been made manager of the baseball team at the U. for the coming season. Lawrence is a member of the class of 1929.

Leroy Sheriff, son of Dr. Sheriff, of Ohio, an alumnus of Maryland U., is proving himself an all-round successful athlete. Leroy is a star on the track team, he is a splendid hurdler and has showed more than exceptional ability as a member of the Champion Mile Relay Team. He is a colonel of the military corp.

The Dent family has been connected with the University of Maryland longer than any other family in the history of the Institution. The first Dent left Maryland in 1863 on account of the Civil War. His son, W. G. Dent, now head of the real estate firm of Gardiner and Dent, Washington, D. C., is an alumnus of our Institution. Another Dent, W. G.'s son, graduated this year, and there is still another younger son now enrolled at the University.

#### THE OLDEST AND YOUNGEST.

We were greatly honored on July 21st with a visit by Mr. Horace M. Davis of Poolesville, Md., Class of 1874. He called with his brother to look over the Institution, the former desiring some information from the bug department. In a tactful way, Dr. Cory was able to learn from Mr. H. M. Davis that he was perhaps the oldest living graduate of the Institution. Mr. Davis advised us that his classmates were Mr. Frank Norwood of Frederick, Md., Dr. Lewis Griffith of Marlboro, and Mr. John Coffren, the four graduating in the Class of '74.

We lament the death of Dr. L. A. Griffith. We do not know the address or the whereabouts of Mr. John Coffren who was from Southern Maryland. Any information concerning him will be gratefully received.

Mr. Davis, who has now reached the age of 76 years, has just retired from teaching school in Montgomery County where he has taught for 27 years. Mr. Davis secured his A. M. from our Institution in 1877 and has not been back to the college since that date. He looked hale and hearty, has raised a family of two boys and one girl; our Dr. Horace Davis of the University Hospital being one of his distinguished sons. His good wife is living and is looking forward to celebrating their 50th anniversary.

It was an inspiration to talk with Mr. Davis, have him relate his experiences while at old M.A.C. and to observe the progress made since that date. We are glad to know of Mr. Davis, for prior to this time we have no record of classes earlier than 1875 which was represented at our Alumni meeting by that distinguished and honored alumnus, Dr. John B. Gray of Calvert County.

1931

The first part of the report deals with the general situation of the country. It is a very interesting and informative study of the country's development. The second part of the report deals with the specific details of the country's development. It is a very detailed and thorough study of the country's development. The third part of the report deals with the specific details of the country's development. It is a very detailed and thorough study of the country's development.

The fourth part of the report deals with the specific details of the country's development. It is a very detailed and thorough study of the country's development. The fifth part of the report deals with the specific details of the country's development. It is a very detailed and thorough study of the country's development. The sixth part of the report deals with the specific details of the country's development. It is a very detailed and thorough study of the country's development.

The seventh part of the report deals with the specific details of the country's development. It is a very detailed and thorough study of the country's development.

# The Alumni Log

Vol. I.  
No. 4.

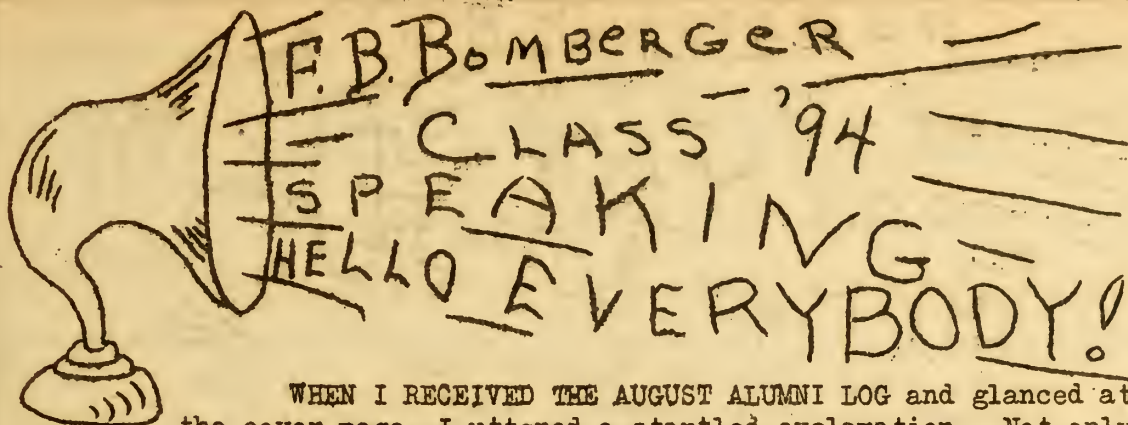

University of Maryland  
College Park, Md.

Sept  
1927

WHEN I RECEIVED THE AUGUST ALUMNI LOG and glanced at the cover page, I uttered a startled exclamation. Not only was the "old gray barracks" brought vividly to my recollection, but I seemed to recognize, in the slender, military-looking cadet in the inset, one of the youthful striplings that first climbed timidly up those entrance steps in September, 1891. I wondered if, perhaps, the artist had unearthed a late-Victorian photograph of me - one of the kind so eagerly desired for "home distribution" by the rat away at college for the first time.

YEAH, BELIEVE IT OR NOT, that's the way WE looked thirty-six years ago - the old gray barracks and I. And what a flood of recollections deluged my mind when the ALUMNI LOG flashed the picture before me!

The old M. A. C., practically self-contained in that one gray-walled brick building, with an enrollment of students considerably less than one hundred, and an actual attendance toward the end of the 1891-1892 season, of only forty-three! The step-child of the State, denied decent support and prevented from complete dissolution only by the funds derived from Federal grants! A college sans library, sans laboratories, sans technical equipment, sans the ordinary decencies in dormitory furnishings BUT - rich in that immortal heritage, the spirit of old Maryland. Oh how that spirit glowed in the student body! Blind absolutely to handicaps, they dared compete with any rival, no matter how large or how well supported or equipped. In state or even in national competition - whether athletic or military - these M.A.C. boys dared everything, feared nothing. THEY NEVER KNEW WHEN THEY WERE LICKED.

That's the thought that came rushing back to my mind when I saw the cover page of the ALUMNI LOG. Many times men have asked me, "What is there about this Maryland College that makes it thrive in spite of adversity, non-support, defeat of its best laid plans for development? What makes it flourish like a green bay tree in spite of the 'slings and arrows of outrageous fortune'?"

Well, there is no doubt in my mind about the answer to those questions. It is the spirit of indomitable courage that breathes from the soul of her every student and alumnus. It is this spirit that forces her ahead of other colleges in the State; that challenges and defeats Yale or Pennsylvania. It is that same spirit that has inspired her growth and development from a one-building school into a commanding institution.

That is what makes even her enemies give her grudging praise. That is what thrills the heart of every alumnus or former student when he sees the picture of those vanished walls of the old gray barracks. He feels that he is a part of the foundation on which her

greatness rests.

To at least one of the "old timers", the coming of the ALUMNI LOG is a monthly joy. May it be the harbinger of closer co-operation by the alumni! In the language of Webster, "The past at least is secure".

Let us labor together to place new laurels on the brow of Alma Mater.

# (") M C L U B

W. G. DENT, PRESIDENT OF THE "M" CLUB makes the following announcement: -

"Saturday, October 29th, is the regular scheduled game with Washington and Lee. It is also homecoming day at College Park. On this day, the "M" Club will hold its annual meeting for the election of officers, and for the transaction of such other business as may come before the meeting. All "M" boys are requested to make a special effort to be present, not only for the purpose of attending the meeting but to swell the crowd and root for Maryland.

"Maryland apparently has a good team this year and it is the duty of every old Marylander to support it. BEGIN NOW TO MAKE PLANS to attend the funeral of Washington and Lee on Saturday, October 29th, at College Park. Bring your friends, whoop, yell and raise h---! I hope to see the biggest, noisiest crowd that ever attended a game at College Park.

## JOIN THE "M" CLUB

Anyone who is eligible to join the "M" Club, and who has not already done so should immediately make application to the secretary, R. W. Axt, College Park, Md.

## THIS YEAR'S REGISTRATION

In a few days it will be possible to secure the final figures on this year's registration at the University. From present indications there will be a consideration increase over last year's enrollment.

THE UNITED STATES OF AMERICA  
DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT  
WASHINGTON, D. C. 20250

# BLM

BLM - Bureau of Land Management

The BLM is a federal agency within the Department of the Interior. It is responsible for managing the public lands of the United States. The BLM's mission is to sustain the health and productivity of public lands for the benefit of the people of the United States. The BLM manages over 265 million acres of public land, which includes forests, grasslands, and other natural resources. The BLM works to protect these resources and to provide for the sustainable use of the land.

The BLM is committed to the protection and management of public lands. It works to ensure that these lands are used in a way that is consistent with the public interest. The BLM also works to provide for the sustainable use of the land. This includes managing the land for recreation, wildlife, and other purposes. The BLM is a key agency in the management of public lands and is committed to the protection and sustainable use of these resources.

C U R L Y

P R E D I C T S

SOME GREAT  
GAMES!

STRONG TEAM !

HARD SCHEDULE !

The University of Maryland has now opened the most difficult foot ball schedule it has ever attempted, says Curly. Not only that, but it is going to play a harder schedule than any other institution in the South. With the exception of Washington College, which it defeated last Saturday (September 24th) by 80 to 0, the largest score ever made by a Maryland eleven, the list of teams comprises the largest institutions in South and includes Yale at New Haven.

The team plays all along the Atlantic seaboard. It goes to New Haven, to Norfolk, to Richmond, to Charlottesville, and to Florida. In addition to these contests it goes out to Tennessee to meet Vanderbilt. And, of course, always has the annual Thanksgiving Day battle with Hopkins.

Washington College brought to College Park a weak team, one that could make no headway against Maryland and which could not stop the plays that were directed at it.

From the present outlook the team will be strong, probably as good and possibly better than it was last season. Just what the result of its contests will be is impossible to foretell, as such results hinge on many factors. It is safe to say that some great games are likely to be played in 1927.

#### The 1927 Schedule

Sept. 24 Washington College at College Park  
Oct. 1 South Carolina at College Park  
8 North Carolina at Chapel Hill  
15 Virginia Polytechnic Inst. at Norfolk  
22 Virginia Military Academy at Richmond  
29 Washington and Lee at College Park  
Nov. 5 Yale at New Haven  
12 Virginia at Charlottesville  
19 Vanderbilt at Nashville  
26 John's Hopkins University at Baltimore  
Dec. 3 University of Florida at Jacksonville

THE UNIVERSITY OF CHICAGO

1880

DEAN SMALL, CHAIRMAN,  
FRESHMAN REGISTRATION  
PROGRAM COMMITTEE AT  
UNIVERSITY

According to Dean Small, the Freshman Registration program was carried out very successfully on Monday, Tuesday and Wednesday of the opening week of college. A large number of freshmen were completely

registered and classified; medical and psychological examinations were completed; under guidance of faculty leaders, the twenty or more groups into which the freshman class was sub-divided learned something about the campus and made a beginning of getting acquainted with each other. Each afternoon a recreation program was carried out by the physical education department. The president's reception Tuesday evening brought all the freshmen together in a delightful social occasion, and the general meeting Wednesday night was devoted to talks on college life.

C H A N G E S  
O N T H E  
C A M P U S

R O A D S! R O A D S! WHAT WOULD WE GIVE FOR SOME GOOD ROADS LEADING INTO AND ABOUT THE CAMPUS! Well, Well, we are now getting good roads and cement walks - and getting

them in a hurry. When the Alumni come to the University on Homecoming Day, October 29th, they will see many changes in progress on the campus. President Pearson has been able to secure the services of Mr. O. C. Simonds, one of the foremost landscape architects in the country, in designing the plan for the campus improvements and the location of contemplated buildings. Further details about these splendid improvements will appear in the next issue of the LOG - we must "stand by" for this issue.

V I S I T O R S

J. R. Lewis, Assistant Treasurer in Montgomery County recently visited the campus to make arrangements for entering his eldest son in college. He expressed gratification at the progress his Alma Mater is making and appreciation of the LOG. He said he would endeavor to interest all of the old fellows in his county in the future work of the Association.

Ralph Boyer, Benning Station, D. C., who attended college in 1914-1916 stopped in on September 6th to pay his respects (and incidentally his dues), and to look over the lineup for the foot ball season. Ralph was a great help to the teams when he was here and still maintains a lively interest in the success of all our teams. He is now successfully engaging in the life insurance business, being located with the Home and Friendly Company in Baltimore. COME AGAIN, Ralph.

George Schmidt, Class of '25, called recently. He was looking fine. This year he is teaching in Warrenton, Va.

Dr. George Peterson, 3602 Newark St., N.W., Washington, D. C., class of '98, called September 11th. Doc has been quite ill but expects to again resume his practice on October first.

A. D. Radebaugh, '14, now connected with the American Can Co., Baltimore, Md. visited the institution September 16th.

Russell Marker, '23, stopped in to see us recently. He certainly looked fine and seems quite happy in his present location - doing research work in chemistry at Yonkers.

# FRAT Doings

## A BIG WELCOME AWAITS THE ALUMNI WHO RETURN ON HOME COMING DAY - OCTOBER 29th

Fraternity and sorority averages for the past year are now available at the Registrar's Office. Delta Psi Omega received the highest average among the competitors for the Delta Mu scholarship cup. This is the third time the cup has been won by this fraternity and it is thereby entitled to permanent ownership. Alpha Gamma, a newly organized fraternity is leading the others in scholarship, but will not be a competitor for the cup for another year. Sigma Delta with an average of 2.96 leads both sororities and fraternities.

**SIGMA PHI SIGMA:** The Chapter House was sold last June. About 16 of the men are now located at Green Gables. Plans are now under way to start building the new house early next Spring.

**PHI ALPHA:** - Epsilon Chapter - The new home, just off College Ave. and near the Sigma Delta house, is now being occupied. Prof. Berman was a recent visitor. He was formerly a faculty member in the College of Engineering. The following events are scheduled: Smoker, Sept. 29th; House Dance, Oct. 28th; House Party, Thanksgiving; House Party, Junior Prom Week; Epsilon Chapter Dance in March.

**SIGMA NU:** An Alumni Reunion is being planned during the anniversary celebration of the Chapter which is November 27th. A dance and banquet will be given. Among the recent visitors were: - Cecil (Tubby) Branner, George Lucky, Aubrey Wardwell and Fred Herzog. Wm. (Zuke) Supplee has returned to the campus, and it is understood he is helping coach the foot ball team.

A recent letter from Phillip B. Truesdell, 104 Brix St., Clinton, Wisc., class '27, advises that he is now located with the Four Wheel Drive Auto Company. He is enjoying his new work and expresses his interest in the LOG and the work of our Association.

Burton Ford, the distinguished and energetic member of class '16, and a member of the Maryland House of Delegates, has recently opened an office in College Park, engaging in the general contracting business, insurance, sale of automobiles, etc. "B.A." is a go-getter, and is a valued citizen of College Park for he is determined to do all he can in securing improvements for his home town. Every worthy interest looking to improving conditions at College Park is sure to enlist his interest. Success to him.

# OUR ALUMNI

Harold Finch, '27, is very happily located with the Babcock and Wilcox Co., Baltimore, Md.

J. Wayne Mills, '25, is located at New Castle, Pa., being employed in the Engineer Corp of the Maintenance of Ways Dept. of the Pennsylvania Railroad Co.

James W. Stevens, '19, is associated with Stevens Bros., Baltimore, Md., wholesale fruits, produce and grain commission merchants; he is secretary and treasurer of the W.H. Rector and Co., Inc., poultry and egg house; is a member of the Governor's of the Baltimore Fruit and Produce Association, and secretary of the Baltimore Butter and Egg Exchange. On April 30th, 1927 he was married to Miss Helen Paula Turner of Roland Park.

Wm. H. Carroll, '18, known as "Happy" is now a real estate operator with George Abell Company of Towson, Md.

H. M. Carroll, '20, known as "Smiles", now County Agricultural Agent of Harford County, is located at Bel Air, Md.

"Jimmie" Swartz, '17, is now proprietor of Mano Swartz, Baltimore's leading furrier.

George E. Johnson, '23, is now Manager of the Johnson Machinery Company, 138 South Fifth St., Salina, Kansas. He says he is enjoying the LOG very much and that he hopes to visit us this year.

Ulpiano Coronel, '25, recently returned to the United States from Ecuador, his native country, where he was employed with the Heat, Light and Power Company of Guayaquil.

J. B. Seth, '26, was recently promoted to the position of Traffic Engineer with the Chesapeake and Potomac Telephone Co. with headquarters at Parkersburg, West Virginia.

G. M. McCauley, '26, F. Matthews, '25 and E.A. Streett, '27, are stationed in the Washington office of the Telephone Company.

H. E. Neighbourne, '22, is at West Palm Beach, Florida, engaged in development work.

W. T. McCune, '25, and Paul Morris, '25, are with the City of Miami, Fla. in the Department of Public Service.

C. C. Castella, '25, who was until recently Chief Draftsman of the Division of Streets of Miami, Florida, has just become Draftsman with the Arlington Memorial Bridge Commission at Washington, D. C.

C. E. Darnall, '22, formerly on the construction of the Wilson Dam in Alabama and more recently on harbor improvement at Columbia, South America, has recently become Inspector of Construction on the Arlington Memorial Bridge now being built across the Potomac at Washington, D. C.

E. C. Palmer, 2874 Woodbrook Avenue, Baltimore, Md., class of '02, but compelled to leave before graduation due to sickness, is now associated with the Phoenix Mutual of Hartford, Connecticut. He has two fine sons who are leaders in the Baltimore City schools.

In checking up the Alumni Association mailing list, we regret to learn that the following have been placed on the deceased list: - R. S. Kann, member of class '18, formerly connected with the Pittsburg Crushed Steel Co.; Miss Ruth Fuhrman, Class of 1923; Cecil H. Bacon of Washington, D. C., class '19; he served in the Army during the World War and was later employed in the Office of U.S. Land General, U.S. Bur. of Standards and Bureau of Public Roads and was an active worker in many notable organizations.

### H O M E   C O M I N G

There's something about the words "home coming" that appeals to all of us. It is instinctive to all animals to know their homes, and usually, if given a fair chance, the dumbest of them will seek it. Dogs will travel miles and miles and pigeons will fly day after day to reach their homes while it is said that birds pass over countries of vast area to reach their nesting places.

How much more then should we listen to this instinctive desire in the hearts to visit home now and then. It may be the home of our childhood and beloved parents, or the home of our collegiate life in our formative days.

To many of us our college is our second home. Perhaps we now have our third home, but just as a mother's love is divided among her children, so we alumni can divide our love among the homes that have nurtured us and educated us.

Alma Mater stands with outstretched arms to welcome YOU on Home Coming Day, October 29th.

### C A M P U S   I M P R O V E M E N T S

It is desired to emphasize in this issue of the "Log" the splendid improvements now in progress on the campus. We are glad to present on the next page President Pearson's statement to the alumni outlining the plans for this development. He has kindly consented to have prepared for distribution to alumni with the next issue of the "Log" a picture showing the improvements.

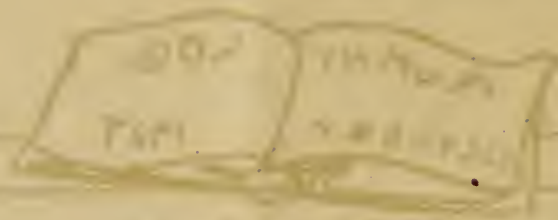

For many, many years, particularly since the common use of automobiles, the need for good roads through the campus has been apparent. Also the desirability of paved walks has been in constant evidence to those visiting and attending the institution.

We are indebted to Governor Ritchie and the last Legislature for funds for these long-felt wants and to President Pearson, Mr. H. C. Byrd and Mr. John N. Mackall for making possible the building of the roads and walks on the campus in such record time.

All "Home Comers" on the 29th will be surprised to observe the progress already made in grading and in the construction of roads and walks. At this time all will be able to form some idea of the extensive plan of the improvements as designed by Mr. O. C. Simonds, a leading landscape architect, although the ultimate effect can hardly then be appreciated. Certainly all will rejoice with President Mitchell in the final adoption of a comprehensive plan for the future development of the campus.

THE UNIVERSITY OF CHICAGO

1911-1912

The University of Chicago is a private research university in Chicago, Illinois. It was founded in 1890 and is one of the leading universities in the United States. The university is known for its research and academic excellence. It has a large endowment and a high ranking in various fields of study. The university is a member of the Association of American Universities and the Ivy League.

### OUTLINES PLANS FOR CAMPUS IMPROVEMENTS

To Our Alumni: -

The editor of the ALUMNI LOG has invited me to make a statement relative to improvements on the campus. I do so with pleasure.

The question of improving any campus is one of great importance. No recommendation has been made to me so often as that the campus, roads and walks should be improved. There seemed to be a universal demand for this. With the growth of the university, the need became greater each year. It would have been cared for previously if funds had been available.

We thought that before undertaking such an important job, the best possible advice should be secured. Mr. O. C. Simonds, a wellknown landscape architect, was invited to study the whole question and give his advice. Mr. Simonds lives in Chicago and does work from Maine and Florida to California. At the present time he is engaged on an important landscape project near New York City.

After discussing the various problems with numerous interested persons, he located the roads so that they will be convenient and will provide a good view of the university for visitors. The walks are laid out with an idea of directness and beauty, rather than on a formal plan. I do not know of any campus comparable with this where walks would be used by the student body if a different plan were followed.

Mr. Simonds has recommended for the library, which we hope to start next Spring, a site directly South of the Engineering Building and in front or East of the oak trees, with its long axis running North and South and the building facing both East and West. At this point one has practically the same view to the East as was had years ago from the old Barracks Building, which now would be largely obscured by the growth of trees. The Board of Regents is considering this site.

For the Administration and Recitation Building, Mr. Simonds recommends a site in front and a little East of the new Chemistry Building, almost where the flagpole now stands, and facing East and West. There is no money in sight for this building, so there is plenty of time to discuss its location. Mr. Simonds points out that a building in this location would have perhaps as fine a view North, East and South as was had by the old Barracks Building before the trees to the South and East had grown so large, and before the brick buildings were erected on the North side of the green. Also a building at this point would be conspicuous from the pike, and if its architectural appearance is good, it will reflect credit upon the entire institution. Its interference with the view from the hill top would be more than compensated for by its own fine view.

Numerous alumni have been consulted in the development of plans, and their suggestions are highly valued. It would be helpful if we could call on the recognized committee of the Alumni Association to discuss the whole subject with us.

I am glad to give much credit to Mr. Byrd for his interest and great assistance in all these developments, and we owe a great deal to our friend, John N. Mackall, who has shown his personal, as well as official interest in the developments.

R. A. Pearson, President,  
University of Maryland.

"ALUMNI SHOULD REJOICE" SAYS PRESIDENT MITCHELL

"IN THE ADOPTION OF A PERMANENT PLAN FOR  
CAMPUS IMPROVEMENT"

President Pearson is giving in this issue of the LOG a brief outline covering the future development of our college campus as planned by Mr. O. C. Simonds, an eminent landscape architect.

This is a most important step because with this layout it will now be possible to get the best effect from the natural beauty of the campus, and in addition there will be a permanent plan which can be adhered to. Future buildings can be placed so they will not only fit in with the general scheme but they will be located so as to give the best results from an artistic and advertising standpoint.

The lack of just such a plan in the past has proven quite a handicap, and it is a matter of great satisfaction to me to know that our President and the Board of Regents have employed the best talent available for advice in this very important project.

We can soon begin to enjoy the fruits born of this planning as new permanent roads and walks are now in process of construction, adding greatly to the comfort of the students and to the appearance of the campus.

I know every alumnus will rejoice that a start has been made to adapt a permanent plan to the future development of our university.

J. Hanson Mitchell, President,  
Alumni Association

A L U M N I B O A R D M E E T I N G

President Mitchell has requested the secretary to announce a meeting of the Alumni Board to be held in Baltimore Friday evening, October 28th. It is expected that at this meeting plans for developing the work of the Association during the winter will be approved.

A W O R D O F A P P R E C I A T I O N

We are greatly indebted to J. B. Himmelheber, class of '23, for the excellent original sketches which he has furnished for the front covers of the September and October issues of the "Log". Himmelheber is proving his interest in the work of the Association by this splendid cooperation. We anticipate the pleasure of presenting other interesting drawings from this talented alumnus. He is now associated with the Koefer Advertising Agency in Washington, D. C. Himmelheber is doing fine work with this firm which specializes in art work, booklets, folders and general advice on sales promotion.

Obvious advantages:

Better impression upon visitors, who come in cars.

Alumni better impressed. Sentiment for the old roads quickly evaporates when one is caught in the mud, or had to cross them in the rain.

Gives form and substance to other plans for campus improvement, by creating a framework upon which to build; (i.e. planting of shrubs, placing of buildings, etc.)

Indirect advantages:

First time the state officials have interested themselves in the school, except when specific appropriations have been made; may lead to more aid from state departments.

# OCT 29

# Home Coming

Home Coming Day was inaugurated by the "M" Club in the fall of 1923.

This is the day when all the alumni return to their Alma Mater to see a good football game.

W. G. Dent, President of the "M" Club announces that the following program for Home Coming Day, October 29th, has been arranged.

1 P.M. Pep meeting at the gymnasium; assemble to practice college yells; march in a body to the football field; game with Washington and Lee is scheduled for 2 P.M.

5 P.M. Immediately after the game, the regular annual meeting of the "M" Club will be held at the auditorium; election of officers.

6 P.M. Banquet and special entertainment at the dining hall. All alumni, members of the "M" Club, their wives and sweethearts are invited. This is the first time the ladies have been invited. There will be a nominal charge of \$1.00 per person and in order for those in charge to have some idea as to who will be in attendance, all who expect to be on hand should send in their names to R. W. Axt, College Park, Md.

9 P.M. Dance under the auspices of the "M" Club. It is expected that all who attend the banquet will remain for the dance. The charge for the dance will be \$2.00 per couple.

Mr. Dent says - "Don't overlook the fact that this is to be one of the biggest days in College Park history, but in order to make it successful in every way, a big crowd should be present. Don't forget that the bigger the crowd, the finer the spirit of the football team. COME TO THE GAME, bring your friends, and make as much noise as you can for Maryland".

AND THIS IS YOU IF YOU ARE NOT HERE

Helen G. Beyerle, class '27, who is connected with the Nutrition Service of the American Red Cross, advises that her address has been changed to Hotel Collins, Jasper, Alabama.

J. Fletcher Showell, class '06, is now located at Trinity Rectory, Hughesville, Charles County, Maryland. He has promised to send us some news regarding himself which we hope to publish in the LOG.

Harry Stanford, President of the Stanford Paper Company of Washington, D. C. writes - "after reading Bomberger's article in the LOG about the Old Gray Barracks, it is indeed a pleasure to enclose my check for my annual dues".

Adelbert G. England, class '27, is now located with the State Road Commission as Inspector; his address is 15 W. Glen Ave., Raspeburg, Md.

George W. Schramm, '22, recently sent in the correct addresses of several alumni whose names had been published in the "Want" column of the LOG. He says John (sometimes Possum) White, class '23, broadcasts every Friday night from W.A.B.C., New York at 8.15 o'clock as "Cowboy Joe". George's address is 3409 Newark St., N.W., Washington, D. C.

J. G. Scott (Joe) is now located at 408 Sugar Bldg., Denver, Colo. and his home address is 737 Garfield St., Denver, Colo. He is now in charge of the Market News Service of the U. S. Dept. of Agriculture for Colorado, western Nebraska and part of New Mexico. He writes the climate out there is wonderful but that he prefers good old Maryland.

J.D. Morris, '26, is Assistant Supervisor of Track, Pa. R.R., Jersey City, N.J.; succeeds Wm. S. Grace, '12, who has been transferred. Send letters to Y.M.C.A., Jersey City.

Stanley C. Orr, '24, has been transferred from Birmingham, Ala. to Chicago, Ills. as Service Engineer of the McWane Cast Iron Pipe Co.

J. Fred. Kenly, '99, has resigned from the B. & O. R. R. and is now Structural Designer, McClintic-Marshall Co., Baltimore, Md. Letters should be addressed to 2225 Elsinor Ave., Baltimore, Md.

Harold J. Caul, '06, is manager Porto Rico Division, American Fruit Growers, Inc., 199 Franklin St., New York City; letters should be sent to Vega Alto, Porto Rico.

Richard H. Dixon, Jr., '06, is with Colston, Heald & Trail, Investment Securities, 403 Keyser Bldg., Baltimore, Md.

Charles Linhardt, Jr., '12, Consulting Heating Engineer, is located at 2126 Edmondson Ave., Baltimore. Charles thinks so much of his favorite university that he has influenced his brother-in-law to attend, and has named the University as one of the beneficiaries in his will.

J. P. Schaefer, '23, is with the Potomac Electric Power Company at Washington, D. C.

W. A. DeCaindry, '25, is with Day & Zimmerman at West Chester, Pa.

W. M. Kline, '26, is with Geo. A. Fuller Co. at Durham, N.C. engaged on the erection of buildings for the Duke University.

J. N. Mackall, '05, chairman of the Maryland State Roads Commission, was elected Vice-President of the American Association of State Road Officials at their annual meeting in Denver.

Erston Miller, '19, and M.S. '21, was married recently to Miss Elinor Case of Benzonia, Mich. He is now located in Hagerstown managing the Miller Seed and Grocer Co. He received his Ph.D. from Michigan State in '26 and is planning to return to the scientific world as soon as his father is again able to manage the Hagerstown business.

# WANTED

CORRECT ADDRESSES FOR THE FOLLOWING ALUMNI AS MAIL  
SENT TO THE ADDRESSES NOTED HAS BEEN RETURNED TO  
THIS OFFICE MARKED "UNCLAIMED".

F. G. Donn, Hollywood, Calif.  
R. B. Berry, Upper Marlboro, Md.  
T. G. Riley, Sharptown, Md.  
Mary E. Grove, Hagerstown, Md.  
K. Wm. Nielson, 514-12 St. NW, Wash. D.C.  
R. B. Thomas, 1310 Randolph St., Wash. D.C.  
Frank Banfield, Takoma Park, Md.  
Oscar Coblentz, Jr., Catonsville, Md.  
W. R. Kelley, 822 N. Fulton, Baltimore, Md.  
Norris N. Nichols, College Park, Md.  
F. B. Rakeman, Indianapolis, Ind.  
J. L. Showell, Lubbock, Tex.  
D. W. Cashell, Highland, Md.  
Irvin Peebles, Baltimore, Md.

J. E. Sullivan, Jacksonville, Fla.  
M. M. Clark, Takoma Park, D.C.  
Chas. A. Jones, Clay Center, Kans.  
W. A. Wooters, Cordova, Md.  
M. Wright, 6-26 St., Baltimore, Md.  
Mildred Smith, Washington, D.C.  
Sidnia Butler, 49 W. 9th, New York  
Wm. Hambright, Bel Air, Md.  
Marcus McCarron, Worcester, Mass.  
W. A. Parlette, Berwyn, Md.  
F. C. Skilling, College Park, Md.  
Glenn Frazee, Pittsburgh, Pa.  
J. H. Painter, College Park, Md.

"Feebe" Quaintance, '26, and Dorothy Davis, '26, were married in August.

Lansing G. Simmons, '23, was recently married in Hawaii to Miss Wynn of Los Angeles, Calif. Simmons is with the U. S. Coast and Geodetic Survey and has made an excellent record with that organization.

-----

Charles Leroy Mackert, better known as just plain "Mack", who has been on the staff of the University and assisted in coaching for several years, is among the missing during the 1927-28 term. He is going to study physical education at Columbia University. "Mack" who got his B.S. and M.A. at Maryland, plans to come back here after completing his studies at Columbia next June.

Mrs. William Lassman, nee Pat Wolfe, '26, made a visit to the campus recently accompanied by her husband who is a newspaper man.

Many of last June's graduates are teaching this fall. Naomi and Gertrude Ryon and Elizabeth Taylor have schools in Southern Maryland. Katherine Stevenson is at Oakland, and Gladys Miller is at Flintstone. Grace Warner is teaching in the Bel Air High School.

NO. 6.

ARE WE HAPPY, CONTENTED AND THANKFUL?

I wonder if it would not pay all of us to stop, look and listen and ask ourselves if we are happy, contented and thankful for the blessings of the past year. We have all had our "ups and downs", our joys and disappointments and our winnings and losses in the life that is passing over so quickly, like a panorama of a beautiful scene composed of hills and valleys, forests and open country, streams and rivers, yet all in all so beautiful as to grasp the imagination of the most skeptical and cynical among us. The man who said, "the greatest business in life is living" stated a truth that too many of us, I am afraid, overlook.

Let this Thanksgiving of 1927 be to one and all alumni of Maryland U. a Thanksgiving of greater appreciation to our Creator, Guide, and Heavenly Father for the blessings He has showered on us. May we express this appreciation in the service that we can render to our fellow man and to our Alma Mater during the ensuing year.

If the "Alumni Log" has contributed in a small way to the reuniting of friendships among classmates or to arousing a sustaining interest in the development of the University and the upbuilding of a strong Association which will be of service to its members, it is more than thankful.

Let us be thankful for the untold blessings we all enjoy. Let us find happiness in service, and be the bearers of cheerfulness to those with whom we come in contact.

Say, we know you will get a kick out of "Rube" Brigham's very excellent article beginning on the next page. We thought at first we would treat it as a serial, more next time, but it is so good that we cannot break the gait. The article contains some real "horse sense" which I am sure will be appreciated by all alumni.

THE UNIVERSITY OF CHICAGO

THE UNIVERSITY OF CHICAGO  
LIBRARY  
CHICAGO, ILL.

THE UNIVERSITY OF CHICAGO  
LIBRARY  
CHICAGO, ILL.

THE UNIVERSITY OF CHICAGO  
LIBRARY  
CHICAGO, ILL.

I take as my text, "The old place ain't what it used to be." This is the wise remark  $9\frac{1}{2}$  out of 10 of us alumni pull upon returning for a day at College Park. "The Old place ain't what it used to be". No, it is not. Neither is your wife today the bride of 10, 15 or whatever years ago it was. And you wouldn't want her to be. She's a lot more companionable, understanding, and necessary to you than she was then. If your married life has approached anywhere near the ideal, you and your wife have grown closer in thought, tastes, purpose and action. She is dearer, far dearer, to you than the dream girl you led to the altar. On the other hand, a man seldom does anything more foolish after he is 40 or 45 than to pay a visit to some sweetheart of his youth. He gains nothing and probably loses a fragrant if somewhat faded memory! Why, then, do we alumni persist in thinking of the U. of M. in the light of a transient sweetheart of our puppy days rather than as a life companion with whom we have mutual interests, sympathy, and affections?

And if one persists in this sweetheart of by-gone days attitude toward U. of M., there isn't in my opinion much pleasure to be found in a return visit. Better dream on about the halcyon days when you used to come back from town on the Saturday night owl, stumble up the dear old cinder path in the dark, and be met at the barracks with a bed slat or water bag or maybe, a tour of guard duty. Return and you will find the old barracks gone, the cinder path about obliterated, and even (they tell me) water bags and bed slats gone to that limbo whither guard duty long since departed. No, if you want to see the old place as it used to be, don't go to College Park.

"The old place ain't what it used to be." In the opening game of the season last month, U. of M. trimmed Washington College 80 to 0. When I visited the campus a few days later nobody seemed particularly thrilled. Yet I can remember a terrible licking our team had in Chestertown in the fall of 1905 and how wild we were when we beat them to a fare-you-well the following year. It was a great victory. Did we celebrate it? I'll say so! Ponder this.

In the last few years I have been lucky enough to have the chance to visit the campuses of Ohio, Wisconsin, Kansas, Iowa, Oregon and California. Judged by such standards, what a pitiful excuse for an educational institution we had 20 or 25 years ago. It was pitiful

as far as physical equipment went and it would have been in other respects except for two outstanding qualities of its faculty and student body in those days, loyalty and - good old Saxon word - guts!. Loyalty and guts - that is the combination that has made for whatever success alumni of that earlier period have achieved. It was the combination which made football teams of that day what they were, making up for lack of weight and power in speed, aggressiveness, and sheer brains and bluff! We need the same qualities in the alumni today for the new and greater institution that claims our allegiance and support.

"The old place ain't what it used to be". We need to forget this sad refrain. We need to think of what U. of M. is and what she is going to be. Think of how she has grown in 20 years, the great increase in the number of students, her large and able faculty, her prestige and authority in the State and abroad. I can say this with good conscience for I have been as guilty as any of spending time mourning over departed landmarks and customs. In fact more often than not. I have been conscious of U. of M. in terms of what disturbed me rather than what pleased me. I grieved when the old barracks burned. Who did not? I was not entirely enthusiastic when the college became co-educational. It looked like an uncertain experiment. I was unreconciled when the college became overnight the University. I looked with derision on the introduction of caps and gowns at commencement. There were others. I had company. Only the other day, I returned to find the campus covered with a network of roads laid out on a brand new plan. It puts out of joint further the picture of the old college as it used to be. In fact, the old landscape is pretty well shot. To many it will give a sensation that apparently some felt when the wife took to bobbed hair and knee skirts. Yet if there is one thing the place needed, it has been decent roads and walks. The present administration of the university deserves our thanks. We now have such campus roads as once we only dreamed of. And judging by past experience with other innovations, I rather think we'll adjust ourselves sooner rather than later to the new landscape effects.

We need to get the habit of treating U. of M. as a companion of our present life and not as a memory of coltish days. As alumni, we need to know her better. In this I say frankly - and I think, fairly, the institution has been more at fault than its alumni. The university has not provided the continuous and intimate contact with its students after graduation that should have been provided years ago. THE LOG under the able direction of T. B. Symons is pointing the way to better acquaintance but this is not enough. The U. of M. ought to get out a monthly magazine for its alumni. This magazine should be for the purpose of keeping its alumni intimately interested in the activities and objectives of the University. Such a magazine should have a section giving university news of general interest to alumni and departments for the graduates of its various schools bringing to them its latest thought in educational progress, culture, and professional knowledge. In this and other ways such as holding local meetings of alumni, strengthening class organization, etc., the U. of M. could soon build up a strong alumni body, keenly interested in the future development of the institution and finding its influence as important in their present daily life as it was when they were students. The obligation to bring this about is not all on the side of the alumni. It's up to the U. of M. to get us in step and keep us in step. As she does so, let us look forward not backward.

# OUR ALUMNI

## GEORGE L. WENTWORTH, '04, RETURNS FOR HOMECOMING DAY.

Many of the old men at College Park were more than glad to welcome George L. Wentworth, Class of '04, on Home Coming Day. To all appearances Wentworth has not lost any avoirdupois and is looking as prosperous as ever. He is associated with Burns Bros., large coal dealers, both retail and wholesale, of New York City. It is a ten million dollar concern. Wentworth is also Vice-President of the Temple Contractors' Association and Vice-President of the Steamship Fuel Corporation. His many friends will be glad to know that he was married in 1924. FINE GEORGE ! COME AGAIN !

## HENRY D. WATTS PAYS OLD MARYLAND U. A VISIT.

Many of his old friends were more than glad to meet Henry D. Watts with his charming wife at the football game on Home Coming Day, the 29th. It was a real pleasure to see Harry back with us again and we were naturally sorry that he could not see a winning game. Watts is Executive Vice-President of the James Stewart Company, a large and noted contracting firm of N. Y. City. At present this firm is engaged on a large contract for the N. Y. Central R. R. in New York City and has a several million dollar contract in Brazil. The old saying, that you cannot keep a good man down, is exemplified in the brilliancy of Harry's career.

## R. S. GRIFFITH RETURNS FOR FIRST TIME IN FORTY YEARS.

R. S. Griffith, class of '77, returned to College for the game on Home Coming Day after forty years' absence. He has been practicing medicine first in West Virginia and then at Banco City, Virginia, his present home. He is the uncle of Walter Griffith. He was looking fine and seemed very glad to be back on the old hill.

## CONGRATULATIONS BILL.

William H. White of the Class of 1903 walks around with his chest out just a little bit further and brags that a future member of the Alumni Association has recently come to his home. We feel sure that when the time comes, little William Engle White, Jr. will be just as faithful and loyal to his Alma Mater as is his father. Big Bill still lives at College Park and is with the Bureau of Entomology, U. S. Dept. of Agriculture, Wash., D. C. He is also Treasurer of the Washington group of the Alumni Association.

---

E. F. Garner, M. E., '04, of the Cornell University staff visited the campus last week. He is now on his yearly leave.

1901 - The three captains have a "set-too" in the Hop's office while Hep is out on the hunt of Big Dick. Limber throws a cake of soap at Dick's head just as Hep returns. Everybody wonders who threw that cake of soap. Hep says, "you are all as bad as privates".

Major Wilfred Wangsdoodle Cobey, of Maryland Agricultural College Battalion, and Thomas Bailey Aldritch Symons, and Lieutenant and Adjutant of Maryland Agricultural College Battalion of Cadets appear on dress parade riding two large white cows.

Cairnes orders his bugle brigade to play "Goo-Goo Eyes" for the Battalion. Fomby makes a bad blunder.

1902 - Prof. Bomberger - "Mr. Wisner - what do you mean by pauperism?"  
Mr. W. - "Why, it is that state in which we find ourselves after having had a visit from the treasurers of the Athletic Association, June Ball Organization, Rossbourg Club, Y. M. C. A. and Reveille".

Why are the Commandant's whiskers like the U. S. flag?" - "Long do they wave."

Mackall's love is like the wind, the dews, the rain, the flowers,  
Dispelled with time, soon out of line, and quickly dimmed with  
hours.

The Rennert is his hostelry for reasons that  
we know full well;

His wandering footsteps lead him there by  
some far-reaching spell.

Charlie Dory.

# New Mercer

At the first meeting of the New Mercer Literary Society plans were discussed as to the programs to be put on each week. It was decided that once each month an outside speaker should be secured to give a talk before the Society.

One meeting each month is to be given to reviews of popular books, which are secured through a circulating library in Washington.

Once a month there will also be a discussion of current events and debates on current questions. The final meeting of the month will be a social meeting. At this time there will be dancing and refreshments will be served. An interesting year is expected by every one.

## FRATERNITIES

Tau Beta Chapter of Tau Epsilon Phi has until last year limited its activities to the Baltimore colleges of the University of Maryland. Last year she launched a drive for men at College Park and was extremely successful in her attainments.

The social program of the year has already been entered into. An informal dance at the Southern Hotel in Baltimore was a huge success. The Thanksgiving Formal is being planned. The affair is to be unique in that certain novel practices are being arranged.

Among its thirteen active men at College Park is Henry, "Beany" Brown, brother of Chauncey Brown, attorney, and Dr. Leo Brown. He is one of Tau Beta's three football aspirants. The other two are D. R. Robinson and Judson Venczky. H. A. Teitelbaum is out with the cross country squad.

The alumni of Alpha Omicron Pi, graduates of the classes of '23, '24, '25, '26 and '27 spent October 25th on the campus. They were guests of the active fraternity members at a dinner and bridge party given to celebrate the birthday of the installation of Pi Delta Chapter of Alpha Omicron Pi.

The Authorship Club met at the home of Mrs. A. Clay for the purpose of electing officers for the coming year. O. P. Reinmuth was elected President, and Elwood Nichols, Vice-President.

The selection of a Secretary was delayed until the November meeting.

The following committees were chosen: Program, Dr. C. B. Hale, J. T. Pyles and Grace Kemp; Membership, Dr. H. C. House, Dr. S. Harmon and J. Brewer.

## HOME COMING DAY A SUCCESS

### MANY ATTEND FOOTBALL GAME

Home Coming Day, conducted under the auspices of the M Club on Saturday, October 29th, was a great success in every way, but we did want to win that game. It was a strenuous, hard fought, cleanly played and enjoyable game despite the fact that it went the wrong way. The contest was enjoyed by the largest crowd, probably from 6,000 to 8,000, ever to witness a gridiron battle at College Park. As Hanson Mitchell said after the game, that beautiful run by Roberts that gave us our only score gave him sufficient kick to last for some time.

### CLUB MEETING.

At about 5 P.M. on October 29 in the Auditorium, located in the Agricultural Building, President Gilbert Dent called the M Club to order. R.W.Axt served as Secretary. There was a very fair attendance. Several matters of business were disposed of and suggestions made to further develop the ideals of the club in promoting athletics at the Institution. The following officers were elected for the ensuing year: Pres., Gilbert Dent; Vice-Pres., George F. Pollock; Sec'y.-Treas., R. W. Axt; Rep. of Sports, Football, H. C. Byrd; Baseball, H. B. Shipley; Track, Kenneth Grace; Lacrosse, R. V. Truitt; Tennis, Burton Ford.

### DINNER AND DANCE.

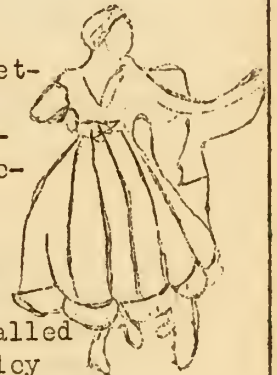

Following the meeting all members and their wives or sweethearts enjoyed a dinner in the College Dining Hall.

President Pearson extended a cordial greeting to the members of the M Club and pointed out that the next time they returned he hoped to have the campus in apple-pie order.

Arthur Hirst, '02, was the speaker of the evening. He was in good form and all present enjoyed and profited by his address.

Following Hirst's address the toastmaster, Pres. Dent, called upon many club members and Alumni in the hall, including Curley Byrd, H. C. Whiteford, John Collier, John B. Gray and Dr. Griffith.

The meeting adjourned to participate in a well managed and greatly enjoyed dance in the Gymnasium.

### ALUMNI BOARD MEETING.

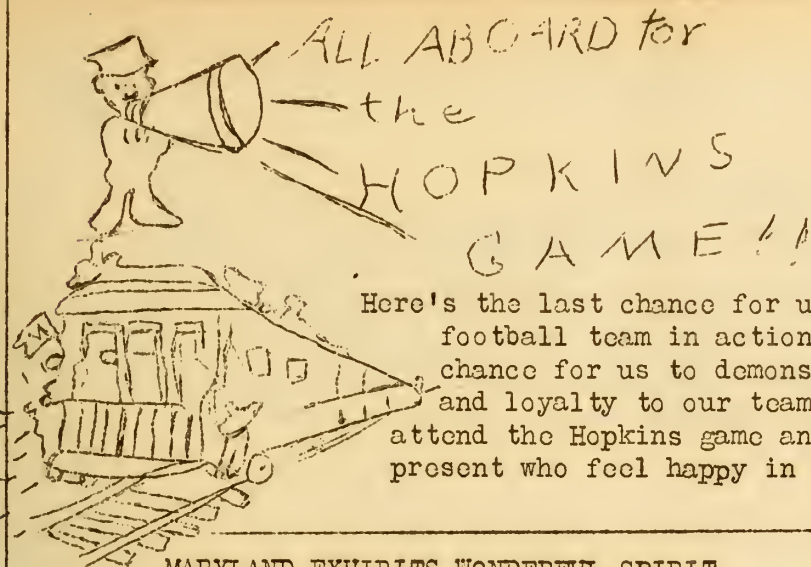

A very satisfactory meeting of the Alumni Board was held in Baltimore at the Alcazar Building on the evening of Friday, November 28th. There was a hundred percent attendance and many matters of interest concerning the development of the Association's work were presented and acted upon. President Pearson attended the meeting for a short while and explained the development of plans for improving the campus.

Later during the meeting a letter was adopted by the Alumni Board approving the plans for the improvement of the campus and commending the adoption of a definite scheme for future developments. Formal notice of this action has been transmitted to the President and Chairman of Board of Regents.

Here's the last chance for us to see the 1927 football team in action. Here's the last chance for us to demonstrate our enthusiasm and loyalty to our team. Let's plan to attend the Hopkins game and be among those present who feel happy in the result.

#### MARYLAND EXHIBITS WONDERFUL SPIRIT AT CHARLOTTESVILLE.

They came from all directions, East and West, North and South, Baltimore, Washington and elsewhere; they came from all groups, students, faculty and Alumni; but all came in the same spirit of loyalty to old Maryland, to board the special train bound for the Charlottesville game. Not even such a thing as defeat in football could daunt such a group. No better spirit has ever been exhibited nor such a group ever gotten together.

The football trophy awarded each year by Senator Millard E. Tydings to the winning team was presented by the Senator to Virginia.

MAY MARYLAND ALWAYS EXHIBIT THIS WONDERFUL SPIRIT.

#### WASHINGTON ALUMNI MEET

The initial meeting and dinner of the Washington Alumni held at the Harrington Hotel on the evening of November 10th, was well attended, there being representatives of twenty-two different classes present.

The program for the evening included short addresses by President J. Hanson Mitchell, Mr. H. C. Byrd and Sec'y.-Treas., T. B. Symons.

Dr. Symons, with the assistance of Mr. E. I. Oswald, showed a number of slides depicting old scenes at the Institution and illustrating developments that have taken place during the past ten years. These slides were prepared by Mr. E. I. Oswald and Reuben Brigham for the use of the Association. All of the members present seemed to appreciate the slides which recalled pleasant days at Maryland.

Chairman Brigham presented many constructive suggestions relative to future meetings and organization of the group.

The following were named on a steering committee to work out plans for future meetings and organization of the group of Washington Alumni: Reuben Brigham, W. H. White, J. H. Betton, Wade H. Elgin, Jr., and Miss Sarah Morris.

Everyone present agreed that this was a most enjoyable and profitable evening.

Jingle Bells, Jingle Bells,  
Jingle all the way,  
Oh what fun it is to ride  
In a one-horse open sleigh.  
Jingle Bells, Jingle Bells,  
Jingle all the way,  
Oh what fun it is to ride  
In a one-horse open sleigh.

We trust every Alumnus of old Maryland will grasp and hold to the spirit of Christmas. Some of us have missed a great deal in life by not always getting the spirit of the season. Christmas of 1927 will mean more to us individually, to our families and friends, if we recall the blessings of the year and not only realize the significance of Christmas but radiate our joy, gladness and happiness to all with whom we come in contact. It is a season when we can serve our friends better than at any other during the year. It is a season set apart for remembering our friends.

The "Log" extends to every Alumnus the heartiest greetings for the Christmas season and best of wishes for your health, happiness and prosperity during the coming year.

May we all make one uniform New Year's resolution and keep it. "Let's determine to make our Alumni Association a power in leadership and a power for the good of Alma Mater."

HON. M. A. TYDINGS  
U. S. Senator  
S P E A K I N G  
HELLO EVERYBODY!

Whether the college is dead or alive is reflected by the interest the Alumni take in its affairs. Maryland has never been dead but one of the outstanding and pleasant happenings during the last ten years of Maryland's great progress has been the awakened interest and apparent enthusiasm of the Alumni. Old boys are having a re-birth of Maryland's new spirit; new boys and girls show a retained interest after leaving school. I look forward in the next five or ten years to the time when several thousand Alumni will, on home-coming days, be present at College Park and when class reunions of considerable size will reflect the spirit of the new Maryland University. The "Alumni Log" is one of the best mediums through which this desirable result can be obtained while Curly Byrd through his excellent athletic attainments and coaching has added the dash needed to quicken the result.

## P R E L I M I N A R Y   A N N O U N C E M E N T

### A L U M N I   B A N Q U E T FEB. 17, 1928.

Members of the Alumni Board and others of the Association who have gotten together at recent football games have suggested the inauguration of an annual banquet by the Association similar to the one which was so enjoyed by all several years ago.

The preliminary plans call for holding the banquet in Baltimore on the evening of February 17, 1928. It will be an opportunity for Alumni from far and near to spend one enjoyable evening together.

Let's get interested in this event. Let each Alumnus be a committee of one to get out a crowd. We want four hundred present. It will be good for us and good for the Institution. We must demonstrate the interest, loyalty and enthusiasm we have to build our Association into a strong force of active men and women for the welfare of the whole.

May we ask each Class Secretary to communicate with the Secretary and with his class membership and ask other collegemates to meet at the Banquet Board. Let's try for the largest attendance and finest banquet ever held by the Association.

# OUR ALUMNI

Hugh D. Reading, '26, is now connected with Black and Decker Manufacturing Company, Dallas, Texas. He writes that he is enjoying his work very much.

Lieut. Thomas B. Bourne is now engaged as airways extension superintendent over the New York-Atlanta Mail Airway. One half of his route is completed and he is working on the other half. He resumed his duties with the Department of Commerce as soon as the encampment of the squadron at Shepherd Field, near the W. Va. City of Martinsburg was finished.

We learn that J. W. Bolgiano, '19, is living in Towson, Md. He is married and has four children. He is in the real estate and insurance business.

George Burgess (Pat) Sharp, '16, is farming near Knollwood, Md. He is still single.

R. A. (Blondy) Murrell, '18, is in New York with the Standard Oil Company.

J. H. Clagett, '20, is with Seymour Ruff and Sons, stone contractor in Baltimore.

Jessie F. Muncaster is now taking student dietetic work at Fifth Avenue Hospital, New York. She reports that Ethel Grove is also taking work there.

P. R. Barrows, formerly of Milwaukee, has recently taken a position as chief accountant for the Independence Indemnity Company, Philadelphia, Pennsylvania.

Wm. T. McCune, '25, is now located in Springfield, Ill., with the State Department of Highways.

Tom Boyer, '24, is now located at Salt Lake City, Utah, learning the lithographing art.

George Worriow, class of '27, has received an appointment as Assistant County Agent in New Castle County, Delaware. He was very anxious to engage in Extension Work and reports that he is getting along very nicely in New Castle.

Miss Priscilla Pancoast, now Home Demonstration Agent at Elkton, Md., writes that she is enjoying the "Log" very much.

L. G. Simmons, '23, has made a splendid record with the U. S. Coast and Geodetic Survey and is considered one of their best observers. Most of his activities have been in connection with triangulation work in the southwestern states.

E. B. Lathan, '24, and John Bowie, '25, are also with the U. S. Coast and Geodetic Survey. E. C. Baum, '25, recently joined this organization and is temporarily located at Washington, D. C.

C. M. Compher, '25, is Research Engineer with the Standard Oil Company at Elizabeth, N. J.

A. E. Hood, '25, is with the Arundel Corporation on Construction work of the Conowingo Dam.

## CAMPUS ACTIVITIES.

### MORE VARSITY BASKETERS ARE TO REPORT SHORTLY.

Eight candidates who have been practicing for the Varsity basket ball team for a week or more will be joined by about as many more on Coach Burton Shipley's squad within the next few days.

Thurston Dean is the only last year's regular who has been in the workouts, but Walker Hale and Del Zahn, reserves last season, also have been going through the paces along with Bill Evans, Fred Hetzel and Mel Koons, of the 1927 Freshman Team; Jeff Dix, who was a member of the 1926 yearlings, and Johnny Howard, a Soph who did not play last year.

Ham Adams and Captain Fred Linkous, regulars last year, and Julie Radice, George Madigan and Al Heagy, of last year's Freshmen quint, will report shortly.

Augie Roberts and Fred Ribnitzki, also on the yearling quint last season, and Gordon Kessler, who was with the 1926 Freshman squad, also may report.

However, there is a possibility that Roberts and Kessler may go out for track.

### CO-EDS TAKING PART IN BOWLING TOURNEY.

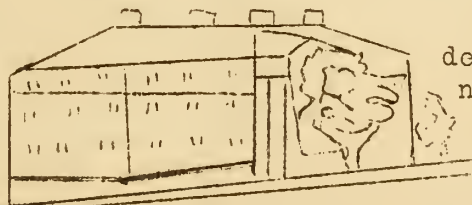

Much interest is being shown in bowling among the co-eds, a regular schedule of games having been prepared.

These games are entered into by teams representing the Day Dodgers, Homestead, Y Hut, A. O. Pi, Gerneaux Hall, Sigma Delta, Practice House and Kappi Xi.

The Day Dodgers, who are evidently accustomed to fast traveling are leading the procession with six victories and no defeats, but are being closely followed by the Homestead which has eight victories and only one defeat charged against it.

### NEW CHEM BUILDING FORMALLY DEDICATED.

On November 26, the dedication of Maryland's new Chemistry Building was held in conjunction with an intersectional meeting of the American

Chemical Society. As the erection of this building is regarded as auspicious in the advancement of chemical education at our University, great pains were taken by those in authority to prepare an unusual program for this event. Members of the American Chemical Society were present from Washington, Philadelphia, Virginia, Delaware and New Jersey as guests of the Maryland section and many of the nation's most brilliant chemists were included as speakers.

The new laboratory is a four-story structure, erected at a cost of \$210,000. Additional funds for the purchase of furniture and equipment have been donated by friends of the Institution, as follows; Organic, Dr. H. A. B. Dunning, of Hynson, Westcott and Dunning, Baltimore, Maryland; Analytical, Dr. Samuel W. Wiley, of Wiley and Company, Inc., Baltimore, Maryland; General Chemistry, Dr. and Mrs. Turner of Berwyn, Maryland; Colloidal, Mr. C. G. Campbell of the Kewaunee Manufacturing Company, Kewaunee, Wisconsin; Industrial, the Chemical Alumni of the University of Maryland.

The forenoon session was opened in the new building by the registration of those present, after which Rev. Matzen rendered the invocation, and President Pearson gave the address of welcome.

Dr. E. F. Smith when called upon for the dedicatory address, delivered it in a most powerful style.

Following this an inspection of the building was made by those present.

Luncheon was served at noon. In the afternoon discussions of different phases of chemistry were held, moving pictures shown, etc.

### LANDSCAPE PLANS FOR CAMPUS

Through the courtesy of President Pearson we are able to present with this issue of the "Log" a sketch of the Landscape artist's plan for the improvement and beautification of the campus. We wish it were possible to make a detailed explanation of just what is contemplated. A little patient study, however, will make the plan clear to those who are familiar with the campus. The system of roads, leading in from the Washington-Baltimore Boulevard, will be easy to follow and the walks from the building are also plain. The plantings, which will give the finishing touches to the contemplated scheme, are also shown. It is hoped, however, that the plan, inadequate as it is, will help the Alumni in gaining a better understanding of the campus improvements under way.

"DRIVE IN". We could put a "Drive-In" sign over both broad entrances to the University Campus now without fear that the public who read and followed its advice would rattle in, bump in and do almost anything else but drive in. The important links of the campus road system are completed and we expect more visits from the Alumni and the public.

The contract work on the driveways has been completed and much credit is due the firm of Thomas, Bennett and Hunter for the efficient manner in which the entire job has been handled. From the time the big steam shovel lifted out the first scoopful of dirt until the last layer of amiesite was in place, there were no unnecessary delays and one operation followed another with clock-like regularity.

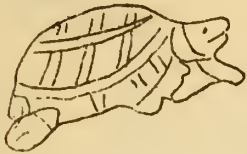

W. T. Ryan, who attended the University several years ago, was the chief representative from the office of the State Roads Commission. His interest in the work has been manifest and his close supervision of details has been responsible in part for the splendid roads of which every Alumnus, student and faculty member can well be proud. We are, of course, deeply grateful to John N. Mackall, Chairman of the State Roads Commission for his cooperation and particularly for the promptness with which the project was gotten under way.

The broad driveways now enter the campus from the Washington-Baltimore Boulevard and are an invitation to visitors who heretofore have been content to view the campus from a distance.

THE TERRAPIN CLUB - AN ORGANIZATION  
OF COLLEGE PARK ALUMNI  
IN BALTIMORE.

A few months ago a small group of College Park Alumni met, as they had been meeting ever since graduation, at the home of one of the men in Baltimore. As usual, the principal subjects of discussion were the old days when these men had been students and the affairs of the University in general.

As the conversation proceeded, some one remarked that it was strange that the College Park Alumni in Baltimore did not maintain closer contact with one another. Immediately one of those present replied this was not due to any lack of a desire to perpetuate the friendships formed at College Park, but to a lack of opportunity for frequent meetings. Then came the suggestion that an experiment be tried - that of forming a club, designating a regular meeting place at regular intervals, and watching the result.

The outcome of this discussion was the formation of the "Terrapin Club of Baltimore". The results were most gratifying and surprising. Out of the original nucleus of half a dozen men has grown an organization of sixty College Park Alumni - an enthusiastic group representing every field of activity, and Maryland men to the core, with all that the phrase implies.

The Terrapin Club, in its articles of organization, has a dual aim. It is organized to perpetuate the friendships formed at College Park and to further the interests of the University in any legitimate manner. Cooperation with the Alumni Association is one of its major policies. Plans are already under way for various projects helpful to the University, and committees have been appointed to study these projects and to report on their desirability and feasibility.

Regular meetings of the Club are held at 2112 North Charles Street, Baltimore. The Club has also held a dinner, at which Mr. Dent, of Washington, was the speaker of the evening.

A resolution commending the splendid manner in which the "Alumni Log" is being handled was passed unanimously by the Terrapin Club at a recent meeting.

The Club extends a cordial invitation to all those connected with the University to attend its meetings and functions, notice of which will be gladly furnished upon request.

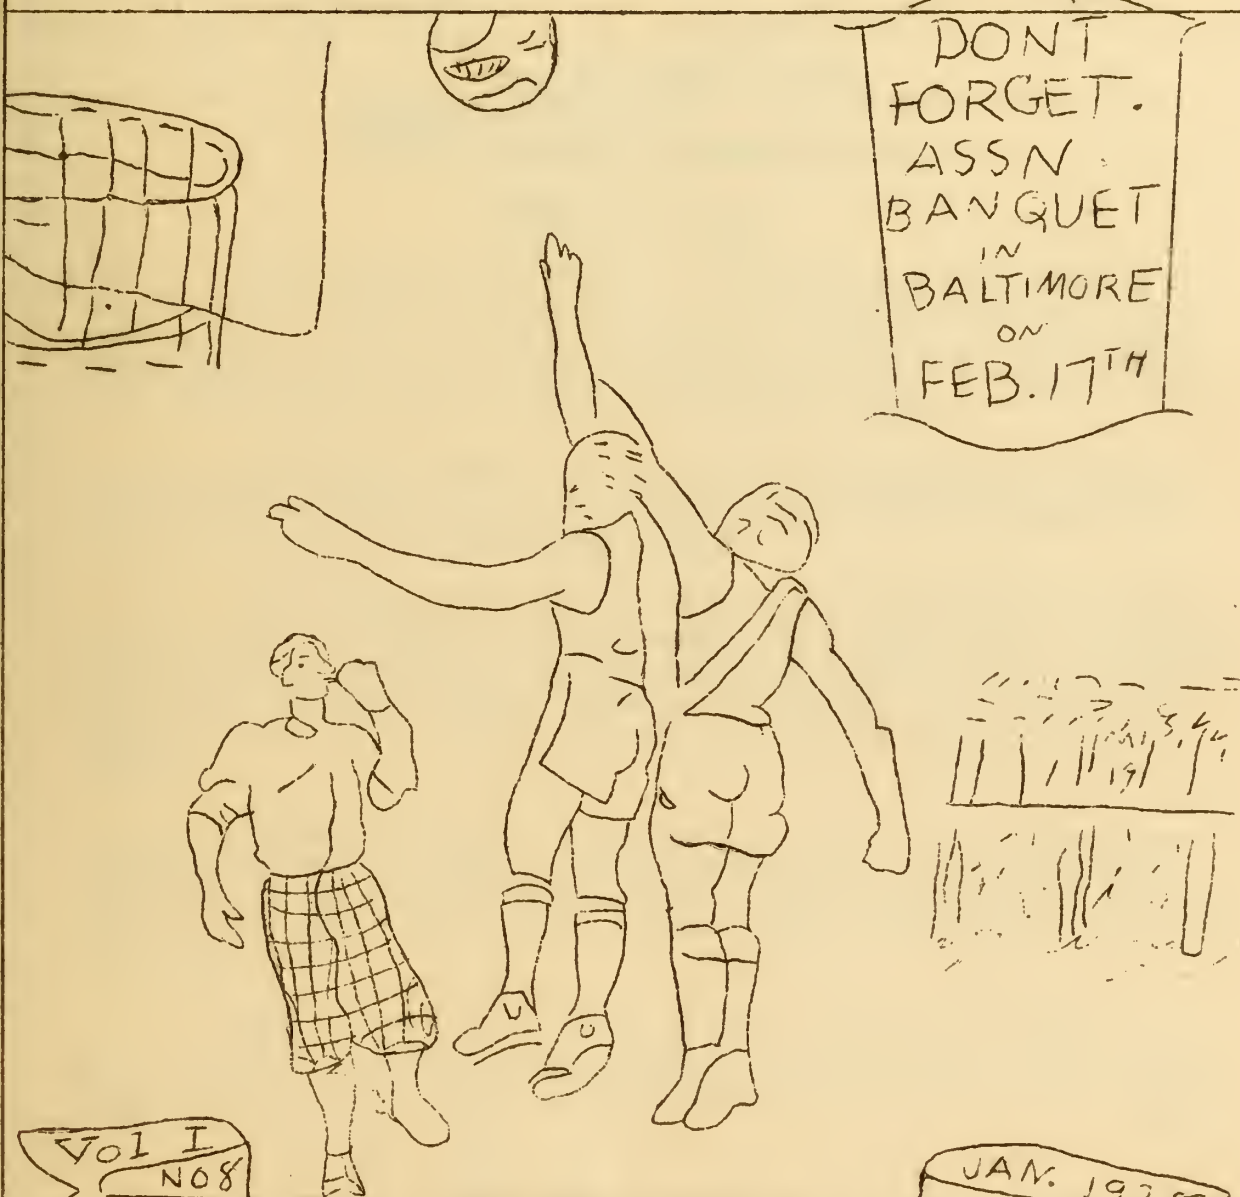

Communications to the Club should be addressed to Emile Zalesak, President, 2112 North Charles Street, Baltimore, Maryland.

BANQUET IN HONOR OF PRESIDENT PEARSON

FEBRUARY 17, 1928.

All aboard for Baltimore. Invitations are on the way to the Alumni and faculty to attend the big banquet to be given by the Association in honor of President Raymond A. Pearson, at the Southern Hotel, Baltimore, Friday evening, February 17, 1928. We want to make this affair the best ever. You and you must be there.

President Mitchell and the Alumni in Baltimore are making arrangements to take care of the largest crowd of Maryland men who have ever gathered for this annual affair.

The Terrapin Club will serve as hosts and has dedicated its services toward making the Alumni banquet the success which it promises to be. Certain features of the entertainment program will be provided by the Club and some surprise features are planned. The Club's full membership will be on hand to welcome and care for the out-of-town Alumni.

No matter whether you are living in New York, Pittsburg or Richmond, you must be there. We want this to be a real get-together of the boys East, West, North and South. Your classmates will be looking for you. The first question they will ask is, "Is Jim or Joe, or Bo or Bill here?"

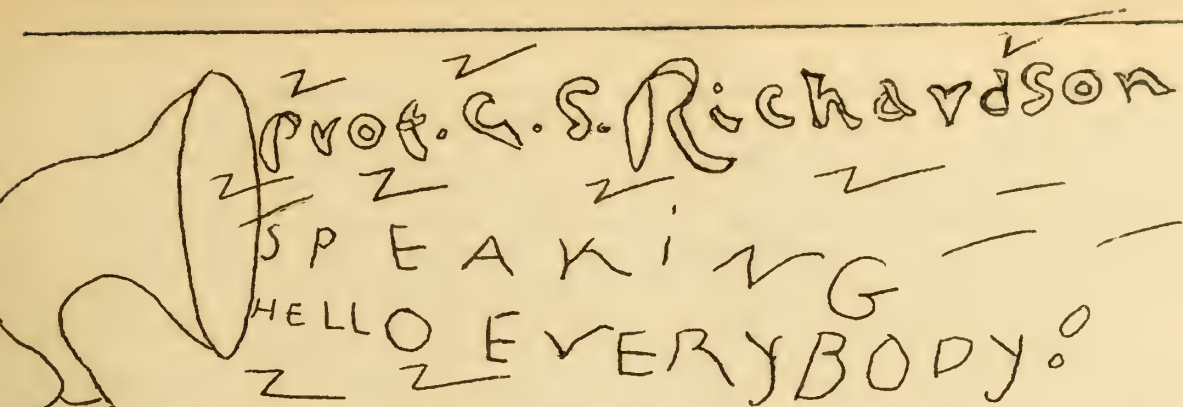

This is the first time the faculty and Board of Regents have been invited to attend the Alumni banquet. We want them to see how we have developed, and we know the vast majority will want to shake hands with Prof. so and so.

By the way, don't delay in letting the secretary know that you are coming. We are making arrangements for the best banquet in the history of the Association. Just decide now that you will be there, and drop a note to that effect. Remember, we are looking forward to seeing you in Baltimore on February 17. Bye-Bye until then.

Some of the best talks I have heard have been broadcast over the "Log's" microphone. There was Rube Brigham, with his old "gray mare", for example, and others also interesting and constructive.

For my part, rather than talk myself, I would much prefer to tune in and hear some of the other old boys. I can recall a score of them at this moment whose ability and versatility would guarantee a good performance. But Doc Symons says I am next. He put me on the program just as he began to eat an apple for lunch and said he wanted the stuff when lunch was over. He was in a hurry for it. Did any living, human being ever see Sy when he was not in a hurry? He is always moving, and moving fast. No ferric hydroxide on his iron constitution.

Tad, the cartoonist, says of a fellow afflicted with chronic bad luck that "he had two strikes on him when he was born". No such handicap for Sy. He had at least a mile start when his life's race began. They say he was married while on his way to catch a train. But there is one good thing about it, - gratifying to his host of loyal friends, - he will apparently never find time to die. Another thing is that when he starts he always gets there, wherever "there" may be. He started the "Alumni Log". The "Log" is a decided success. And therefore since Sy has requested (required) a contribution for the paper, I am responding instantter, pronto, immediately and at once.

You have all had the benefits of the opinions, advice and convictions of those who have preceded me on this page. From a material standpoint but little remains to be said.

There is, however, a conviction of my own - of a spiritual rather than a material nature - which I wish to express, and I express it before the Board of Regents, the Alumni, the Faculty and the students. Here goes.

Great buildings, adequate equipment and learned professors, with ample funds for all needs, cannot of themselves make a successful university. These things are but valuable agencies, impotent of themselves to make more than an attractive show. The forces that make a great university, whether it be large or small, are spiritual not material. They reside in the hearts and souls of men. Unselfishness, tolerance, sympathy, the willingness to surrender personal prejudices and individual hobbies for the success of a common cause, - these are the forces which make a college great. And those in whose hands rests the destiny of the University of Maryland must possess and exercise these qualities, or else we shall be "building on shifting sands and not on the everlasting rock".

Please be assured that what I have said has no direct personal application, but it is the expression of an incontrovertible fact, an unassailable truth.

1741

(Prof. Richardson  
continued)

ALL PULL TOGETHER.

Organization is one of the strongest forces on earth. But there can be no real organization unless divergency of views and difference of opinion are placed in the melting pot of a common interest. The result is a unification of divergent views and opinions, the transmutation of discordant forces into one irresistible power. Remember, carbon mixed with iron makes steel, not because of its strength, but because it produces a rearrangement of atoms, makes them stick tighter together and the result is a substance more difficult to break.

Whenever a definite, constructive scheme for promoting some phase of the college work is officially presented, and we find that it is sound in general principle and purpose, let us, if we wish, offer suggestions, make good-natured criticisms and actually "have our say"—and possibly some of our ideas may be good and will be adopted; but when a scheme or project or plan is definitely formulated and officially adopted, then there should be no disagreement or disaffection in the ranks, or sulking in the tent; but all who love the old college should march forward in solid phalanx, willing and ready and anxious to stick together and fight together for the success of a common cause.

Virbum sopientibus satis. Amen.

---

WASHINGTON GROUP HOLDS INTERESTING MEETING.

A very delightful and profitable evening was spent by the Washington Branch of the Alumni Association on Friday night, Jan. 20 when they met for dinner at the Hotel Roosevelt.

One could not have wished for a prettier setting than that provided for the occasion. Music by a special orchestra was enjoyed during the entire dinner and at various intervals Prof. Goodyear from the University led in the singing of specially prepared Alumni songs.

Reuben Brigham as toastmaster, called the roll of classes. 59 members responded, 10 of whom were co-eds. This was a splendid showing for the co-eds, the increase in attendance being 500% more than at the last meeting.

Two very interesting features of the program were talks by Mr. C. W. Cairnes on the period of the old M.A. C. between 1891 and 1894; and Major O. H. Saunders on the period from 1900 to 1920.

Miss Bernice Moler, one of the recent graduates, spoke of the co-eds in Maryland and how the University is training young women to become outstanding leaders.

Curly Byrd followed with the news of the U. of M. His talk was very entertaining due to the fact that he illustrated it with personalities and spoke of the many funny instances that occurred during college days on the athletic field, in the dormitory and in the class room.

The principal speaker of the evening was Prof. C. S. Richardson on the subject, "What is the matter with the University of Maryland?"

Plans for future meetings were discussed and Joe Betton, Reuben Brigham and Miss Sarah Morris assumed the responsibilities for planning the next meeting.

Announcement was made concerning banquet of the Association to be held at the Southern Hotel, Baltimore, on the 17th.

The first of these is the fact that the  
University of Chicago has a long and  
distinguished history of research in  
the field of the history of ideas.  
This history is reflected in the  
work of the faculty and the students  
of the University, and in the  
publications of the University Press.  
The second fact is that the  
University of Chicago has a  
strong tradition of scholarship  
in the field of the history of  
ideas. This tradition is reflected  
in the work of the faculty and  
the students of the University,  
and in the publications of the  
University Press. The third fact  
is that the University of Chicago  
has a strong tradition of scholarship  
in the field of the history of  
ideas. This tradition is reflected  
in the work of the faculty and  
the students of the University,  
and in the publications of the  
University Press.

Seymour Ruff, '17, is a member of the firm of Seymour Ruff and Sons, Baltimore, Md.

President Coolidge has sent to the Senate the name of John Bowie, Jr., B. S. C. E., '25, to be promoted to Junior Hydrographic and Geodetic Engineer with relative rank of Lieutenant, Junior grade in the Navy.

Dr. Cory states that Mr. Max Kislink, Jr., of the Class of 1915, has just returned to Philadelphia, where he is in charge of the Federal Board. He has just returned from an investigational trip to Spain, where he looked into conditions with reference to the Mediterranean fruit fly in relation to Almeria grapes. He found the fruit fly present, and therefore the Federal Board has refused to lift the quarantine.

On his return he stopped at the Canary Islands to investigate conditions surrounding fruits and particularly tomatoes, to determine whether it is possible to admit same to this country. He found conditions satisfactory, and the tomatoes will doubtless be admitted by the Federal Horticultural Board.

DEPARTMENT OF CHEMISTRY.

Dr. L. B. Broughton,  
Class '08, M.S. 1911 and  
Ph.D Ohio State University

1924, has been made associate head of the Department of Chemistry in charge of academic affairs.

MR. L. E. BOPST IN CHARGE  
OF STATE WORK

Mr. L. E. Bopst, Class '16, has  
been placed in charge of the  
State control work in the  
Department of Chemistry.

CHEMISTRY BUILDING OCCUPIED.

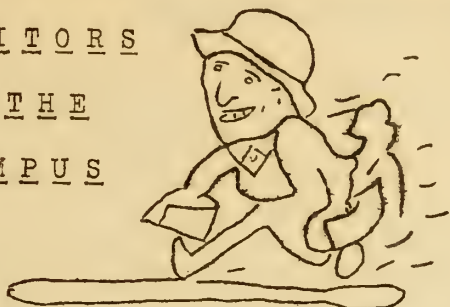

The new Chemistry Building completed this fall is now occupied by the Department of Chemistry officials and classes are now being conducted in the building. It is good to see this Department housed adequately in this fine new building. It is a great credit to Dr. Weile Gordon, the Head of the Chemistry Department, that such fine equipment has been secured from private donors as previously mentioned.

C A M P U S

Charlie Geist, '24, formerly President of the Student Council, called at the Institution recently. He was looking fine and seemed glad to be back to Old Maryland. He is connected with the Purina Mills Company in Washington, D. C.

E. H. Pierson, B.S.C.E., '15, and Mrs. Pierson and child, on their way to Florida from New York, were visitors to the campus in December. E. H. is following the business of general contracting and realty. Mail to him should be sent to No. 809, Coral Way, Coral Gables, Florida.

# Congratulations

K I R K A N D B I R D Y.

Maryland has another football prospect. Kirk Besley, Class '23, one of our good football players, is now the proud papa of a prospective Quarterback. Little Kirk was born on January 3rd. Here's hoping he will be the football player his father was.

Mr. and Mrs. "Birdy" Newell are also the proud parents of a daughter. Elizabeth Anne was born on January 3rd. Maryland will need co-eds as well as football players in the future. Best wishes to the whole flock of "Birds".

## BASKETERS PLAYING GREAT BALL.

Maryland's varsity basketballers, who won six of their first seven games, had eleven more to play when this was written and the team bids fair to hant up an enviable record.

The Old Liners played only one bad game in their first seven titles, but, sad to say, that happened to be against Hopkins in Baltimore on January 20, and they lost, 22 to 20. This slump doubtless was due to the fact that the Terrapins had played great basketball on the two previous nights in routing Gallaudet and Kentucky, and it has been well established that a "third night out" in succession always is a bad one for a court team.

However, the Old Liners will get another crack at Hopkins at College Park on February 21 and it is hoped that a different story may be told. Coach Burton Shipley has an able bunch of basketballers in Fred Hetzel and Ham Adams, centers; Jule Radice, who plays a forward or guard; Bill Evans, George Madigan and Capt. Fred Linkous, forwards, and Albert Heagy and Thurston Dean, guards, who are the eight regulars and Del Zahn and Mal Koons, guards and Walker Hale, forward, reserves. Radice and Dean are unusually clever. Maryland's record in the first seven games is:

Maryland 38, Washington and Lee 24

Maryland 29, Virginia Poly 20, at Blacksburg.

Maryland 31, Washington and Lee 28, at Lexington.

Maryland 23, V. M. I. 9, at Lexington.

Maryland 45, Galluadet 20.

Maryland 37, Kentucky 7.

Maryland 20, Hopkins 22.

Remaining games are:

January 25, St. Johns at College Park.

January 27, Virginia at College Park.

January 30, Stevens at College Park.

February 4, Navy at Annapolis.

February 8, Penn at Philadelphia.

February 10, North Carolina State at College Park.

February 13, Virginia at Charlottesville.

February 17, Washington College at College Park.

February 21, Hopkins at College Park.

February 23, Virginia Poly at College Park.

February 24, Western Maryland at College Park.

The team also will enter the Southern Conference championship/ at Atlanta. tourney

ANNOUNCEMENT of the marriage of M. Stewart Whaley to Ruth Hokonson at Summit, N. J., on Jan. 2, has been made. Stew was President of his class, senior cheer leader, a member of Kappa Alpha and one of the most popular men of his class at the time of his graduation in '26. BEST WISHES, STEW.

THE CALVERT COTILLION to be given on Washington's Birthday is something to be looked forward to by those socially inclined. It is to be held in the Gymnasium at 9.00 P. M., formal, subscription \$2.00. It is sponsored by the Omicron Delta Kappa, honorary fraternity.

REPORT ON THE PROGRESS OF THE WORK

The first part of the report deals with the general situation of the country. It is a very interesting and informative account of the progress of the work. The second part of the report deals with the results of the work. It is a very interesting and informative account of the results of the work. The third part of the report deals with the conclusions of the work. It is a very interesting and informative account of the conclusions of the work.

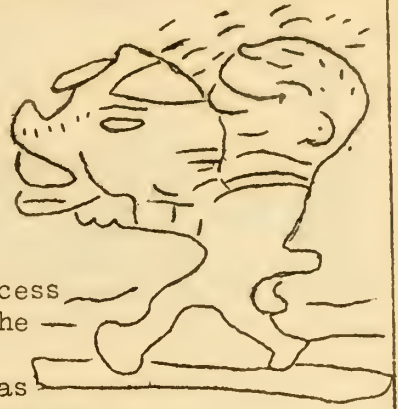

The fourth part of the report deals with the recommendations of the work. It is a very interesting and informative account of the recommendations of the work. The fifth part of the report deals with the summary of the work. It is a very interesting and informative account of the summary of the work.

The sixth part of the report deals with the appendix. It is a very interesting and informative account of the appendix. The seventh part of the report deals with the index. It is a very interesting and informative account of the index.

## ALUMNI ATTEND STUDENT GRANGE QUADRENNIAL BANQUET

DEC. 17, 1927.

The Student Grange Quadrennial Banquet, which was held December 17, was an exceptional success this year. National Master, Louis J. Taber, was the principal speaker. The Student Grange is proud of this as it is the first time the National Master has visited the Institution. The entire state executive committee, as well as other prominent Grangers throughout the State, were also present. As the Christmas Rossbourg was held the same evening, seventeen Alumni took advantage of the occasion to visit their Alma Mater. It was an excellent occasion to renew old acquaintances, meet prominent Grange leaders and the members of the Student Grange as there were about 90 in attendance at the banquet.

The Alumni attending were: Mr. and Mrs. A. A. McBride, both of whom are teaching at Hampstead, Maryland. Mrs. McBride was formerly Miss Olive Wallace.

Wm. H. Evans, Assistant County Agent, Harford County.

Walter Bromley, Dairy Mfg., Newburg, N. Y.

"Ned" Ady, Farming, Jarrettsville, Md.

"Joe" Endslow, Teaching, Dublin, Maryland.

Norwood Thornton, Graduate Student in Agricultural Chemistry, University of Maryland.

E. H. Schmidt, Graduate Student in Agronomy, University of Maryland.

Lionel Newcomer, Fruit Inspector. He travels, but calls Harpers' Ferry, W. Va., his home.

Charles H. Geist, Promotion work for Purina Feed Company, Wash., D. C.

Charles H. Remsburg, Teaching, Middletown, Md.

Harold Remsburg, Teaching, Smithsburg, Md.

Paul Gunby, Farming, Marion Station, Md.

Priscilla Pancoast, Home Demonstration Agent, Cecil County, Md.

Morrison Carroll, County Agent, Harford County, Maryland.

J. Homer Remsburg, Farming, Middletown, Md. Also member of Executive Committee of State Grange.

Katherine Baker, Asst. Home Dem. Agent, Frederick County, Maryland.

We are always glad to see the Alumni and sincerely hope and trust they will not wait until the next Quadrennial Banquet to come again.

"A Student Granger",  
B. B. Powell.

NO. 9.

A L L A C C L A I M B A N Q U E T S U C C E S S

All of us are rather proud of the way the boys turned out for the banquet Friday evening, February 17, to do honor to President R. A. Pearson. Undoubtedly it was the best banquet we have held and the attendance set a record for us to shoot at next time.

One of our enthusiastic members, a serious minded chap who acquired his familiarity with numbers during his football days, estimated the crowd at 1,200. He was good. What was your guess?

\* \* \* \*

Everybody appreciated the honor of Governor Ritchie's presence. We are often impressed with the real sacrifice which the Governor must make to respond to the many demands upon his time and energy and it is a real tribute to his spirit as an alumnus of the Baltimore branch of the University that he found time to be with us. Needless to say, his tribute to President Pearson and to the service which the University is performing, was most highly appreciated.

\* \* \* \*

J. Hanson Mitchell, president of the Alumni Association, gave us all something to think about in his opening remarks, when he referred to the importance of the alumni keeping in touch with the University's progress. No one worked harder for the success of the banquet than President Mitchell and the association can well feel that there is a good hand at the helm.

\* \* \* \*

We wish it were possible to give in detail some of the fine things that Senator Alben W. Barkley, of Kentucky, had to say in his splendid address. As Toastmaster Holzappel aptly said when Senator Barkley had concluded, "we all realized that we had listened to a great speech". Senator Barkley made a plea for greater interest on the part of university trained men in the political life of the nation. We cannot escape politics, he said. It is always with us, ordering our lives in untold ways whether we like it or not. Those

who have had the advantages of education, he said, owe it to themselves and to their country to contribute their services to the betterment of politics.

\* \* \* \*

President Pearson paid a fine tribute to his immediate predecessors in office who were instrumental in shaping the destinies of the University of Maryland. He spoke particularly of the enduring efforts of Captain R. W. Silvester, Dr. H. J. Patterson and Dr. A. F. Woods. He referred, too, to the sympathetic and helpful attitude of the Governor and the members of the Board of Regents. His ideal for the University, he said, is not that it shall be a large institution with enormous budgets but that it shall render in a high class way the kind of services that will be of the greatest value to the people of the State.

\* \* \* \*

Among the enlivening entertainment features of the evening were the dialect stories of Major Charles J. Ferris, the singing of college and popular songs led by Austin C. Diggs, and an interesting collection of campus scenes shown and described by E. I. Oswald and Reuben Brigham.

We might have found someone who could have presided more tactfully and gracefully than Henry Holzapfel, but we doubt it. It is rather pleasing to think that we can draw a toastmaster like Mr. Holzapfel from our own ranks and still more pleasing to think that we have an alumnus of his calibre on the Board of Regents.

THE UNIVERSITY OF CHICAGO  
DEPARTMENT OF CHEMISTRY  
CHICAGO, ILL.

1925

TO THE HONORABLE CHAIRMAN OF THE BOARD OF TRUSTEES  
OF THE UNIVERSITY OF CHICAGO  
FROM  
THE DEPARTMENT OF CHEMISTRY  
CHICAGO, ILL.

THE DEPARTMENT OF CHEMISTRY  
CHICAGO, ILL.

REPORT OF THE DEPARTMENT OF CHEMISTRY  
FOR THE YEAR 1925

CHICAGO, ILL.

We were sorry that more members of the Board of Regents could not be present but we felt gratified that Mr. S. M. Shoemaker, chairman of the Board, and Robert Crain found it possible to attend. High tribute was paid to Mr. Shoemaker for his services as chairman and to Mr. Crain, who in point of service is the oldest member of the Board. Needless to say, the tributes were well deserved. It was also very gratifying to have so many members of the faculty present. It was good to see the alumni greet their old Profs.

\* \* \* \*

The banquet would not have been the success it turned out to be but for the interest of the members of the Terrapin Club; of Baltimore. This unit of the Alumni Association was well represented at the banquet, representatives assisting in welcoming the guests. Unfortunately the lateness of the hour made it necessary to omit from the program an entertainment feature which had been planned by the club.

\* \* \* \*

The food was good and the management of the Southern Hotel deserves some credit for the excellence of the menu and the manner in which the banquet was served.

\* \* \* \*

Among those present was John B. Gray, Class of '75. So far as we know, Mr. Gray represented the oldest class at the banquet.

\* \* \* \*

It was good to see William C. Cole, Jr. for the first time after the rather long illness he had suffered. In fact, his brother alumni were so glad to see him again that they nearly forgot that he is now the Hon. William C., member of Congress from the Second Maryland District.

\* \* \* \*

Strange to say the banquet was the only important University of Maryland function in a long time in which the Hon. M. E. Tydings has not appeared on the program. You can bet your bottom dollar, however, that he was present and what is more had a part in the program, for it was through his efforts that we were able to secure Senator Farkley as a speaker.

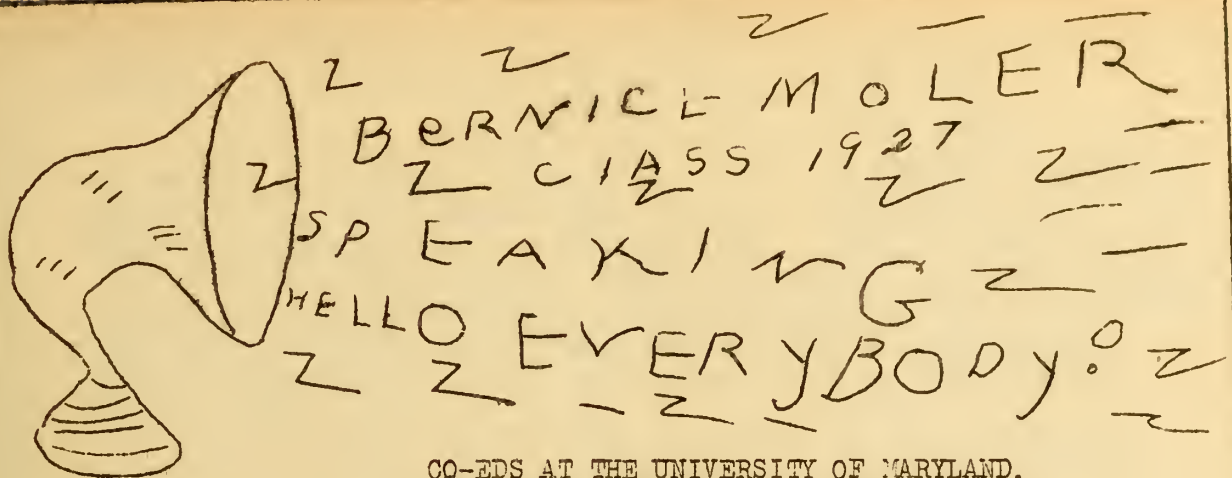

\* \* \* \*

Diggs has not let civil life rob him of his form as cheer leader. We can see him now as the gang lets loose on "Hail, Hail", and "U. of M, U. of M.".

CO-EDS AT THE UNIVERSITY OF MARYLAND.

In 1920, the first co-ed to complete a full four year course at the University of Maryland graduated. She was Miss Elizabeth Hook, now Mrs. Frank Day. At present there are 247 girls registered at the University. The majority of these girls are registered in the College of Arts and Sciences. Next in number are those registered in the College of Education, then Home Economics, and Agriculture, but up to the present time no girl has been brave enough to venture into the field of Engineering.

Co-eds at the University have organized several organizations which are among the most influential and powerful societies on the campus. One of these is the Women's Student Government Association, the constitution of which they wrote themselves. Several years ago the Women's Athletic Association was organized, and it has charge of all the girls' athletics. The Girls' Rifle Team is probably the most enthusiastically supported girls' activity on the campus. In 1925-26 our Girls' Rifle Team won the National Championship and the same year it carried off the shield in the Dot and Circle Competition which all State Universities and a number of other colleges enter. Another organization which belongs exclusively to the girls is the Women's Senior Honor Society, which corresponds to the men's Omicron Delta Kappa. It is an honorary society based on citizenship, service, and scholarship. Five years ago the custom of observing May Day was inaugurated and this custom has become so popular that it is now one of the major activities of the year.

Several of Maryland's co-eds have won unusual distinctions for themselves, a few of which are worthy of mention here. In 1923-24, Mrs. Eleanor G. Robey, then a Senior at the University, won the State Oratorical Contest. Last year Miss Catherine Barnesley won the Francis P. Garvan Chemistry prize of \$1000 for writing the best essay in a national competition. Miss Barnesley is now a Sophomore. Miss Gladys Bull, a Freshman, and sister of Fred Bull, has had the unique distinction of addressing a committee of the U. S. Senate.

Maryland's co-eds are making good in all the fields of work in which they are engaged whether it be teaching, club work, home demonstration work, secretarial, etc. and I don't think anyone regrets the action the Maryland State Legislature took in saying that the Maryland Agricultural College must be co-educational before it could be made the University of Maryland.

Handwritten text at the top of the page, possibly a title or header, which is mostly illegible due to fading and bleed-through.

Main body of handwritten text, consisting of several paragraphs. The text is extremely faded and mostly illegible, appearing as light grey shapes against the yellowed paper background. It seems to be a continuous narrative or report.

## VISITORS TO OLD MARYLAND

Stanley C. Orr, B.S.M.E., '24, visited the University recently. Stanley is a representative of the McWane Cast Iron Pipe Company, Birmingham, Ala, in Chicago, Ill.

T. J. Vandoren, B.S.C.E., '25, visited the University on February 3rd. He has been the Washington representative of David Lupton Sons Co., Philadelphia. He is now Manufacturers Agent and is located in the Transportation Building, Wash., D. C.

James M. Burns, Class of '11, called at the Institution on February 7th to renew old acquaintances and inquire as to the whereabouts of one of his classmates.

Perry E. Clark, known to his classmates as "Peck", stopped at the University recently. He was looking fine and seemed to be glad to be back at Old Maryland. He is now living at LaPlata, Charles County.

Griffith Clark, who left school to enter the Motor Transport Service during the World War, was a recent visitor. He is at present located at West Chester, Pa., with the Sharpless Separator Company. His brother, J. Booker Clark, Jr., who likewise went into the service at the same time, is now peacefully farming at Green Cap, N. M. A younger brother, O. L. Clark is still maintaining the Clark record by being registered in the College of Agriculture.

Floyd Ritter, '25, stopped at the Institution on February 2nd to renew old acquaintances and pay his dues. He is now Farm Manager at Veterans Hospital, Perry Point, Md. He stated that he was receiving the "Log" and enjoying it very much. Call again, Mr. Ritter.

Joe Burger, who has for some time been in China with the U. S. Marines, is now in the U. S. He has been out at the University a number of times. It is good to have the old boys back with us.

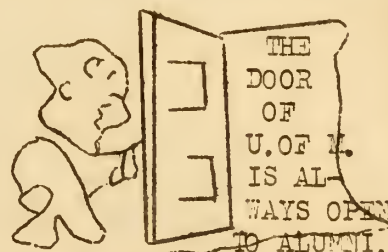

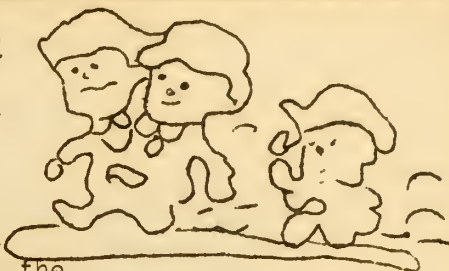

Major O. H. Sanders, 1910, Commanding Officer, Fort Washington, called at Old Maryland recently. We hope to have a message from him for a forthcoming issue of the "Log".

J. W. P. Somerville, '05, visited us on Thursday, February 17th, to make arrangements for attending the banquet and talk with old friends. He is President of the Midland Mining Company at Cumberland, Md.

During the County Agents' Conference held at the University in January, the following Alumni visited the Institution:

R. F. McHenry, Stanley E. Day, John B. Morsell, T. D. Holder, L. C. Burns, Geo. R. Stuntz, H. R. Shoemaker, H. M. Carroll, H. B. Derrick, O. W. Anderson, W. B. Posey, R. S. Brown, Jos. L. McGlone and W. H. Evans.

Reuben Brigham, '08, familiarly known as "Rube" was at Maryland recently to talk over details in connection with the banquet. We all remember "Rube" for his "Old Gray Mare" article in a former issue of the "Log".

## O L D C A T A L O G U E S

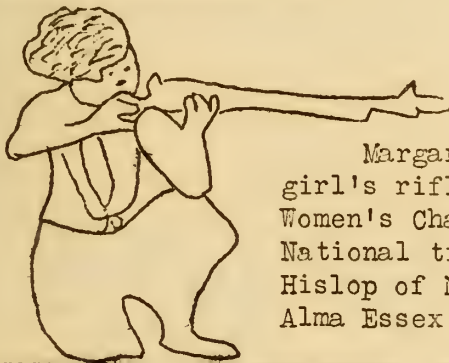

Catalogues and printed reports of the Maryland Agricultural College for years preceding 1898 are needed to complete the files of the University of Maryland. Alumni are urged to look through their books and notify the Assistant Registrar if they find any of these publications which they are willing to donate to the University, where they will be of great value.

## A D D R E S S E S

A special request has been made by one of our Alumni for the address of Mr. Jos. W. Daley, of the Class of 1911 or 1912. We will appreciate hearing from anyone who can advise us as to where he can be located.

We shall also be glad to have information concerning the addresses of the following Alumni:

W. B. Hull	Bert Henchey	Leland M. Hedgecock
Michael W. Whiteford		C. S. Weber.

### MARYLAND TAKES HONORS IN FIRST NATIONAL WOMEN'S CHAMPIONSHIP MATCH.

Margaret Mitchell, Sophomore, member of the girl's rifle team, placed first in the National Women's Championship match and thus brought the National title for 1928 to Maryland. Mildred Hislop of Maryland captured second place and Alma Essex 6th place.

## A W O R D O F A P P R E C I A T I O N

We are greatly indebted to Mr. W. P. Hicks, class of 1919, for the cover page of this issue of the "Log", also for the attractive picture of the entrance to the Agricultural Building on the menu card at the banquet on the 17th. We hope to have other drawings in the "Log" by Mr. Hicks. It is certainly fine to have the boys cooperate in this manner.

DON'T FORGET TO SEND US NOTES CONCERNING FELLOW CLASSMATES AND ALUMNI FROM TIME TO TIME FOR PUBLICATION IN THE "LOG".

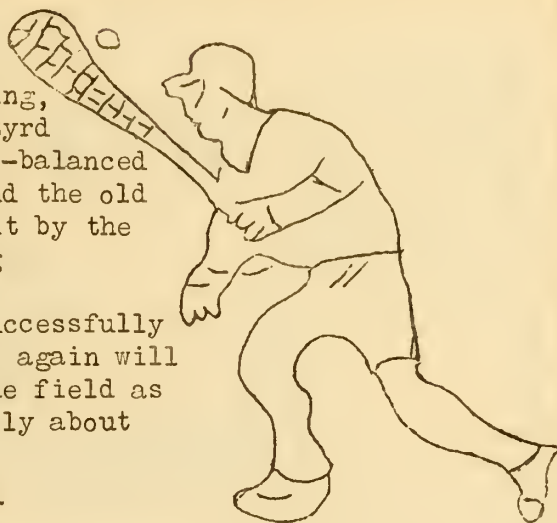

## LACROSSE TWELVE HAS GOOD SCHEDULE.

Ten games have been listed for the Varsity Lacrosse Team for next spring, seven of which will be decided in the Byrd Stadium at College Park. It is a well-balanced and attractive schedule that should find the old line team at its topnotch of development by the time Johns Hopkins is met in concluding battle.

Prof. R. V. Truitt, who has successfully coached the team for a number of years, again will be in charge and will get his men on the field as early as conditions will permit, probably about March 1st.

### LACROSSE SCHEDULE.

April 8 - Randolph-Macon at College Park.  
April 12 - Harvard at College Park.  
April 18 - Virginia at Charlottesville.  
April 27 - Colgate at College Park.  
May 2 - St. John's College at College Park.  
May 5 - Navy at College Park.  
May 12 - Princeton at Princeton.  
May 16 - Lehigh at College Park.  
May 19 - Western Maryland at College Park.  
May 26 - Johns Hopkins at Baltimore.

## MARYLAND DEFEATS

HOPKINS, V. P. I. AND

WESTERN MARYLAND

Maryland students and Alumni held out their chests and smiled the old Maryland smile of success on Tuesday evening, February 21st, when our Basketers made the winning goal against Hopkins, the score being 19 to 23 in favor of Maryland.

The same thing was repeated on February 23rd when the Varsity Basketers played a wonderful game against Virginia Polytechnic. The score was 30 to 10. This was certainly enough to inspire all those who were fortunate enough to witness the victory.

HURRAH! The score was 30 to 29 in favor of Maryland in the Western Maryland game.

No. 10.

For, lo! the winter is past, the rain  
is over and gone; the flowers appear  
on the earth; the time of the singing  
of birds is come.

The whole world is full of the spirit of spring at this time. On all sides the flowers are peeping through the ground, the buds are bursting on the trees and the birds are coming back to us. The earth is awakening. New life is bursting forth.

The campus of Maryland is coming into new life. Here, there and everywhere new shrubbery is being placed, trees are being planted and many other improvements are being made.

Down near the boulevard and in front of the stadium the trackmen, baseball players and lacrosse players are coming from all directions. Spring is here. They have donned the old uniform. They are entering into the spring and summer sports with a determination to win, to do better than ever before. They have caught the spirit of new life. They have awakened to the call for men to support their Alma Mater.

This spring will also see another awakening, that is, the awakening of a new love and feeling toward Old Maryland by those who have roomed within her walls. From all over the country letters have been coming in expressing this love for U. of M. The letter on page three from beginning to end breathes this interest and love in our Old Alma Mater.

Spring is here. The world and Maryland Alumni are awake.

2  
C. W. CAIRNES 2 '94  
2 2 2 U. S. COAST GUARD 2  
2 2 2  
SPEAKING  
HELLO EVERYBODY!

In his request that I write a short article for the "Alumni Log", Symons kindly left to me the choice of a subject. He also, however, classified me as one of the "old boys" which seemingly conveys the veiled intimation that I am expected to address the alumni from a patriarchal point of view. This I refuse to do for the reason that, aside from the record which shows the date of my graduation as 1894, and the birth record in the old family Bible whose secrets it would be sacrilege to divulge, I fail to descry any convincing evidence that I have arrived at such a venerable age as to deserve the sobriquet above referred to. Out of many facts which might be cited to support my contention I will mention only two, namely, that Friend Wife and I are active members of quite a spry dancing club and that I feel no diminution of interest in the ubiquitous and lavish display of feminine pulchritude of these piping times.

I regret, as well, no doubt, the readers, the necessity for the above lengthy preface, but it will be readily appreciated that I could not let that term "old boy" pass without a come-back, not only for my own vindication but also that of my worthy contemporaries some of whom most likely to be known to many alumni are: Gambrill, Bomberger, Holzapfel, Besley, Skinner, Veitch, Key, Enos Ray, Betton, George Calvert, Sam and John Buckley, M. T. Sudler, H. C. Sherman, etc.

Having thus achieved a good long preamble, which leaves me a gratifying small space for my article, I will now announce my subject and dispose of it pronto.

#### UNITED STATES COAST GUARD AS A VOCATION FOR UNIVERSITY MEN.

This subject will, of course, be of special interest to only prospective or very recent graduates. The Coast Guard, one of the four military services of the United States, was established in 1790 and has an excellent record of achievement in all the wars, in the saving of lives and property at sea and along the coast, the enforcement of maritime laws, and many important lines of work too numerous to list here.

Among the advantages of being an officer in the service are: a position of considerable responsibility and importance, interesting work of variety and adventure, certainty of advancement, fair compensation, and retirement on pay (the ranks, pay and allowances are the same as in the Navy.) Among the disadvantages, if any, might be classified the frequent changes of residence for families,

with the constant interruption of schooling for children and the lack of permanent home until rather late in life.

To those for whom this kind of life has an appeal a career in the Coast Guard is well worth considering. Requests for information on appointments to cadetships, etc., should be addressed to the Commandant, U. S. Coast Guard, Washington, D. C.

Four men from old M.A.C. entered the Service soon after graduation and are "still going strong". They are Chiswell, '94, Crapster, '97, G. W. Cairnes, '03 and myself. We have a number of graduates from other well-known schools such as V.P.I. and M.I.T.

Come on in fellows, the water's fine!  
(Though a trifle rough at times).

A L E T T E R F R O M A N  
A L U M N U S.

"Port Huron Industrial Div.,  
Port Huron, Mich.  
March 9, 1928.

Editor, Alumni Log,  
University of Maryland,  
College Park.

Dear Editor:

Just a line from one of the boys who may or may not be carrying the fame and glory of Maryland "way out West". The first copy of Alumni Log just came to me and I surely "got a kick" out of same.

To see the name of "Peck" Clark mentioned took me back to those rattling good days in Calvert Hall and the good old yarns of "Charles County".

Please keep me in mind for any alumni activities and remember that you have at least one loyal Marylander in "Michigander." A welcome will certainly await any of the boys who should be in the vicinity of Detroit.

At present am engaged in industrial engineering work in the St. Clair River District, am married and have a daughter four years old. Would like to know what ten years have done for some of the other boys.

Very cordially yours,  
FRED. B. RAKEMANN (Ditz)  
Class 1918."

### CUPID HITS ANOTHER MARK.

Miss Mary Harbaugh, Class of 1925, was married on February 21st in New York City to Mr. Gilbert Campbell of Boston. Her many friends and classmates wish her much happiness.

### VEITCH HONORED BY FRIENDS

(From Science)

More than one hundred present and former associates and friends gathered at the Cosmos Club on the evening of Feb. 3, 1928, to do honor to F. P. Veitch, Class of '91, who directs the research work on leather, paper, fabrics and naval stores of the Bureau of Chemistry and Soils. The celebration was to commemorate his twenty-five years of service in the Bureau of Chemistry. It took the form of a dinner at which W. W. Skinner presided as toastmaster.

### ANNOUNCEMENTS.

"Old King Cole Is A Merry Old Soul". Why not, for "King" (C. Walter Cole), Class of '31, is now the father of a baby boy. After his graduation from Maryland "King" took his degree in law at Harvard. He is now associated with his brother, Hon. W. P. Cole, U. S. Representative from Maryland, in the law business at Towson.

Robert White, '16, has another son, Robert Franklin. This is Bob's third child. Bob is residing in Metuchen, N. J. and is chemist for the Armour Fertilizer Co. at Cateret. He has been with Armour since graduation.

Eugenia Clement Brooke, now living in Aurora Hills, Va., has announced the arrival of a son. She graduated in the class of '26, and got her Masters in Mathematics last year.

DON'T FORGET TO SEND US ITEMS FOR THE LOG.

# PERSONALS

R. S. Eyre is located at Green Cove Springs, Florida, with the Strauss Bascule Bridge Company, as engineer in charge of the construction of Shands Bridge across the St. Johns River. He writes that Wm. B. Hill and Walter Parker are also in Florida, with the Florida East Coast Railway Company at St. Augustine.

Mrs. Herman M. Wilson (formerly Miss Lillian Earnest) is located at the Methodist home at Gaithersburg. Her husband is Asst. Superintendent at this place.

Thomas A. Frere, is with the Fidelity Mutual Life Insurance Company, Baltimore, Md. He has been in the life insurance business for the past eight years.

"We are always more than glad to get the "Alumni Log", writes Mr. Theo. L. Bissell, '20. He is located at Barnesville, Ga. and is spending his time studying insects attacking the pecan for the Bureau of Entomology, U. S. Department of Agriculture.

J. M. Seney, B.S.M.E., '24, is Production Engineer for the Pacific States Cast Iron Pipe Co., Prove, Utah. Letters to Box 18, Prove Utah.

N. E. Brice, B. S. M. E., '08, has been Mechanical Engineer for the Permutit Co. for many years. The company is located at 440 Fourth Avenue, New York City. He is married and has three children.

J. Henry Bittner, B. S. C. E., '27, is now Asst. Supervisor of Production and Planning, Penn. State Highway Department.

E. B. Dunbar is connected with the James H. Gray Milling Co., Inc. He wrote the secretary on February 10th, enclosing dues, and expressing regrets that he could not be present at the banquet. He stated, however, that he hopes to make a trip here in the spring and see some of the "Old Fellows". Here's hoping he will not wait long before he does it.

H. L. Marshall, '25, writes that he is spending his time in the Everglades swatting gnats and getting set to spread fertilizer around some citrus trees. He also states, "Every month when the Log rolls in, it is just like getting a great big letter from home".

J. William Firor and his brother George H. Firor are both located in Georgia with the College of Agriculture. J. W. is head of the Division of Agricultural Economics and Marketing and G. H. is Field Agent in Horticulture. Both expressed their regrets because they could not be with us on the 17th.

C. A. Warthen, 1908, is connected with the Crawford Company in Washington.

John H. Eiseman is employed with the Bureau of Commerce, Department of Standards.

W. T. S. Rollins is Director, U. S. Postal Savings System, 3814 Eastern Avenue, Washington, D. C.

## O U R P R O F E S S I O N A L S .

Vic Keen, known to all Maryland men for the part he took on the Diamond, has seen service with the Cubs and Cardinals. He is now in business in Baltimore and it is thought that he will go with the Orioles, combining this with his business. If Dunn can land him, his experience and ability should mean much to the Birds.

George England, another of our boys, will also be heard from in connection with baseball this season. George hurled for Maryland, winning seven in ten starts. Jack Dunn signed him last year and he won the only game he hurled in the International League, allowing ten hits, walking one and fanning two.

Maryland is proud of both of these men.

### CALLERS AT U. OF M.

Bill Hill, '22, who has been for some time with the Florida East Coast Railway, visited the Institution on March 3rd. Distance means nothing to an alumnus who loves his Alma Mater.

W. H. Carroll, "Hap", visited the Institution on Friday, March 17th. He is the same old "Hap" and arrived with the usual smile.

Jos. L. McGlone, County Agent in Garrett County, called at the University recently. He reported the usual snow in Garrett County.

CALL TO SEE US.

### GEORGE N. SCHRAMM, CLASS OF '22, NOW CONNECTED WITH LABORATORY OF THE AMERICAN SHEET AND TIN PLATE COMPANY.

George N. Schramm is no longer connected with the Bureau of Standards in Washington, but is now Research Chemist in the Vandergrift, Pa. Laboratory of the United States Steel Corporation. Schramm has been with the Bureau of Standards since receiving his Master's Degree in 1923.

### WALTER S. GRAHAM, '22, DIES AFTER OPERATION.

We regret to announce the death, on March 13th, of Walter Graham, a Maryland alumnus, who died at the Homeopathic Hospital in Washington, as the result of an operation performed in January in Chicago.

Mr. Graham was connected with the fruit and vegetable inspection service of the United States Department of Agriculture, with headquarters in Chicago. He had been with that department for the past six years.

He was a member and former president of Delta Psi Omega Fraternity, also a member of Mt. Hermon Lodge, A. F. and A. M. of Hyattsville.

We extend our sympathy to his family in their bereavement.

# THE NEW YORK PUBLIC LIBRARY

ASTOR LENOX TILDEN FOUNDATION  
455 FIFTH AVENUE, NEW YORK  
The New York Public Library, Astor Lenox Tilden Foundation, is a non-profit corporation organized for the purpose of acquiring, accumulating, and circulating books, manuscripts, and other objects of knowledge and culture. It was founded in 1808 by the City of New York, and has since that time received the support of the City and the State of New York, and the generosity of many private donors. The Library is now one of the largest and most valuable libraries in the world, and its collections are open to the use of all who are interested in the study of literature, history, and science.

The Library is organized into several departments, each of which is headed by a Librarian. The departments are: the Department of Manuscripts and Printed Books, the Department of Maps and Prints, the Department of Music, the Department of Periodicals, and the Department of Reference. Each department is responsible for the acquisition, care, and circulation of its own collection. The Library also has a Department of Special Collections, which is responsible for the care of rare and valuable books and manuscripts. The Library is open to the public, and its collections are available for the use of all who are interested in the study of literature, history, and science.

No. 11.

ANNUAL MEETING - JUNE 1, 1928

The Alumni Board at its meeting in Baltimore on April 18th, confirmed the date suggested by the University authorities for Alumni Day at the Institution, June 1st, 1928.

A special committee was named to confer with President Pearson and other University authorities to decide upon the details of program and arrangements for Alumni Day.

It was the feeling of the Board that everything should be done to make Alumni Day and the meeting at College Park outstanding in the history of the Institution and the Association.

Preliminary discussions and plans call for making Alumni Day a real day devoted to reunion of classes, a peppy and well ordered annual meeting, dinner and various interesting events that will make every alumnus want to remain until the morning after the June Ball, which will be held on the evening of June 1st.

So Fellow Alumnus, just put June 1st down in your engagement book and write your class members saying you are going to be here and will expect to meet them at College Park the first day in June, 1928. Let us demonstrate our renewed interest in the Association and the development of the Institution by being among those present.

CLASS REUNIONS.

According to the Dix System, or Quinquennial plan, which was adopted by our Association last year, the following classes are listed for class reunions this year: '86, '87, '88, '89, '05, '06, '07, '08, '24, '25, '26, '27 and '28.

Already we hear that the Class of '08 is planning a big turnout and big doings here on June 1st. Will not the other class secretaries and members let us have some dope concerning their plans for the next issue of the "Log" which will contain the program, arrangements and events for Alumni Day?

Let's develop a little competition among the classes for these reunions.

Remember, you will never spend a day more pleasantly than in meeting with your former classmates and those of other classes who attended College during the time you did.

### A L U M N I B O A R D M E E T I N G

The spring meeting of the Alumni Board was held in Baltimore on the evening of April 18th. There were present: J. Hanson Mitchell, Miss Sarah Morris, Richard Dale, H. R. Shoemaker, C. H. Buchwald, R. V. Truitt and T. B. Symons. Vice-President Kenneth Grace was the only absentee.

The report of the Secretary-Treasurer was submitted, including a special report on the Annual Banquet and work of the Association during the past few months. The report was accepted and an Auditing Committee appointed to report at the annual meeting.

The President and Board, according to the provisions of the Constitution, designated the following Nominating Committee which will report at the Annual Meeting, June 1st.

E. N. Cory, Chairman; E. F. Zalesak, J. J. Betton, Mrs. Frank D. Day and A. Parker.

A special committee, consisting of R. V. Truitt and Miss Sarah Morris, was named to arrange plans for extending the courtesies of the Board and Association to the present graduating class. The details of the proposal have not as yet been worked out. The thought of the Board is to bring the Association to the attention of the class and to express the hope that the Alumni can be and will be glad to welcome them to our ranks and to serve them in every possible manner.

It is a great satisfaction to the officers of the Association that every member of the Alumni Board has attended meetings regularly and that all have pledged themselves to aid in making the Annual Meeting a success.

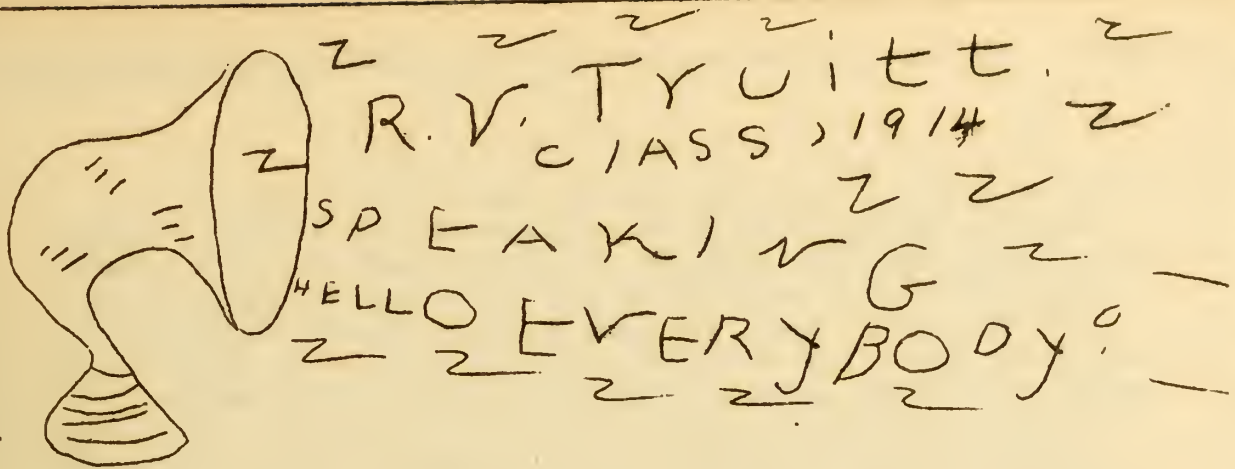

### I N M E M O R I A N .

It is with deep regret that we record the death of Dr. George Peterson under date of February 19th at Garfield hospital in Washington. His host of friends will deeply mourn the loss of this beloved Alumnus, (Doc) Peterson. Doc was ever solicitous for the welfare of his Alma Mater and endeared himself to all who knew him. He was an outstanding physician in Washington City. By his death our Association loses a most valued member, our Institution a staunch supporter and his family a friend and beloved associate. The "Log" extends warmest sympathy to his family.

When the genial Mogul-in-chief of this sprightly publication-what's in a name? Webster says log means "inactive, heavy or stupid" - asked me as a member of the class of '14, to broadcast over Station LOG it was requested that my theme be based upon some local development. It shall be concerned with fraternities at College Park.

To start with, I'd say that my prolixity is to be freehand, largely based upon a memory that is fully as faulty, as was that of the Aged Mayor of a small Western Pennsylvania town, when, appearing before the local Rotary Club to tell of the attributes that accounted for his success, allowed as how there were three outstanding characteristics, the foremost being memory and the second and third, rack his brain as he may, he simply could not recall. Statistics and other related facts, they will be introduced only when absolutely necessary.

Fraternities made their debut at College Park back in the good old days of the Maryland Agricultural College, long before the old college, as some wag has said, was ruined by being made into a university and educational centre. The need for them became acute with the burning of the dormitories during Thanksgiving recess, '12, when the students, approximately two hundred and fifty in number, were dispersed from the Park northward to Baltimore and southward to Washington. Up until that time the small student group living, practically all of them, under the same roof, eating in the same dining room, attending the same social functions, bound by the same rules of government and all, was virtually a big fraternity. Indeed, when a more backward lad came to the campus the whole student group worked for his improvement. Sophomores, of course, as today, were the most active. Under the conditions that existed before the fire there was no apparent need of fraternities, for there existed a comradeship, a feeling of loyalty among the students for each other and a reverence for the school and its faculty, a sense of pride in the institution's position and accomplishments that would do credit to any school and I feel that just about without exception, graduates, before the advent of fraternities will bear me out in that statement. However, after the devastation wrought by the dreadful pheonix things were changed. With exceedingly cramped quarters for classes, no dormitories, no central room, or any kind for that matter, for association, play or other indulgences, and with no immediate relief in sight, fraternities were needed. In fact were inevitable.

Handwritten notes at the top of the page, including the word "Lecture" and other illegible scribbles.

Main body of handwritten text, appearing as a series of paragraphs. The handwriting is cursive and difficult to decipher, but it covers the majority of the page below the header.

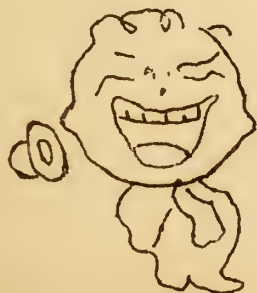

During May, 1912, one, possibly two local fraternities were organized, later to be inducted into the National bodies of Kappa Alpha (1914) and Sigma Nu (1917), both of which organizations stand well up among the some twenty odd fraternities now on the campus. Other national fraternities are Sigma Phi Sigma, Phi Alpha, Phi Sigma Kappa, Delta Sigma Phi and Alpha Gamma Rho. Among the locals are Nu Sigma Omicron (1914) and Delta Psi Omega, Delta Mu and Sigma Tau Omega. The girls, too, have their greek organizations all of which came into being after the war, Alpha Omicron Pi, National, and three strong locals - Sigma Delta, Kappa Xi and Alpha Upsilon Chi constituting the group.

On the campus there are approximately 1,000 students available fraternity men and women of whom about 26 percent are members of national and 19 percent are members of local bodies. These groups are strictly and well governed by inter-fraternity bodies - one for men, another for women - the same rules of conduct applying to national and local chapters.

Space doesn't permit relating here the contributions the social fraternities have made and are making to the University. Friendly rivalry academically, socially and athletically, sends the standards upward and reflects a generally good atmosphere. The types of fraternities, themselves, are a decided credit to the Institution. Holding properties valued possibly higher than \$200,000 and caring for about 300 students, fraternities, from this point of view alone, mean much to the school.

But a word about the honorary fraternities! Eight, several of them standing in the forefront in America's Colleges, are found on the campus with the (Agriculture) Alpha Zeta, (Spanish) Sigma Delta Pi, (English) Phi Mu, (Chemistry) Alpha Chi Sigma, (Military) Scabbard and Blades, (Scholastic) Phi Kappa Phi, (Leadership) Omicron Delta Kappa and (Scientific) Sigma Xi. Election to one of these orders is a mark of distinction and, in effect, recognition of ability in a special field, except in the case of Phi Kappa Phi and the O. D. K. The former honors those, primarily, who have demonstrated academic ability, regardless of the field of study, while the latter recognizes constructive and conspicuous leadership whether social, academic, literary, athletic or otherwise. Sigma Xi, recently added to the campus fraternity roster, stresses scholarship in science with special emphasis of high scientific attainments. The last three named honorary fraternities, alone would do great credit to any college and are a source of pride to the U  
of M.

I'm so happy  
I've made plans to go  
back to U. of M. on  
June 1st. Have you?

PAUL FRED NEWLAND, '24, OF BRISTOL TENNESSEE  
MARRIES.

A great surprise was given to the friends of Paul Fred Newland (Toots) on February 25th when he was married to Miss Elizabeth Hoover of Bristol, Tennessee.

"Toots" finished in the class of 1924 and held the secretarial position in his class throughout its years. He was a member of Sigma Tau Omega, Local, and incidentally, one to help organize this fraternity. He was also a member of the Varsity Football squad for three years, having won his freshman numerals in the same sport.

"Toots" and his wife left Bristol immediately following the ceremony at St. Anne's Catholic Church for an extended automobile trip through Georgia, North and South Carolina and Florida. While in Miami they ran into another Marylander, John Brag, by name, and insurance agent by profession.

"Toots" and his wife are back in Bristol now and are making plans to build in the summer. "Toots" is a business partner with his father in the real estate and rental line, and is doing fine.

WE WISH TOOTS AND HIS WIFE MUCH HAPPINESS.

"ANDY" (WILTON A.) ANDERSON ENJOYS THE  
"LOG".

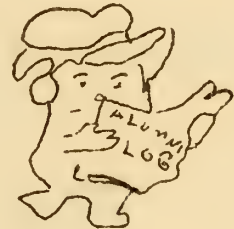

"Andy", now located at Bristol, Tennessee, writes, "I have been praising the Log to all hearers since it has been coming to me, so now to put credit where credit is due, I want to congratulate the Log on the way this edition is compiled. Gee! but its just like it used to be to get a letter from home when we were at school. I never start reading the Log unless I read it from 'Kiver to 'Kiver, as the darkey used to say.

"Lots of times, I've wished that both sides of the paper could be filled and I know with the support of a few more it would be a bigger edition. I don't know how the work is carried on but if I can help in my small way, I hope I will be allowed to contribute.

"Fred Scott, who is in the lumber business in Galax, Va., Bill Scott, Chrysler salesman in Wytheville, Va. and myself are planning a trip to our Alma Mater this spring. You know it's great to drop back occasionally to keep in touch with the great forward steps our school is making.

"Here's wishing our school greater success in all branches of endeavor and especially the Log in giving the Alumni the results of these advancements".

WE'LL BE LOOKING FOR YOU BOYS. TRY TO COME ON  
JUNE 1st.

# ALUMNI AFFAIRS

B. Keith Compton, Jr., is now located at Richmond, Va. He is Engineer of Tests, Dept. of Public Works, for the State of Virginia. Keith left the University at the beginning of the war and since that time has been living and working in North Carolina, Tennessee and Virginia. He writes that he is glad to be in touch with the old Institution through the "Log".

It was certainly good to receive a letter from Rogelio Capestany, Guayama, Porto Rico, under date of April 10th. Since his graduation in 1907 he has been working hard at the profession, fourteen years with the government in road and irrigation work and seven on his own hook doing all kinds of engineering work.

He writes that he is doing well in business, also that he has a family of seven children. He expects to visit us sometime in the future to look into the possibility of entering two of his children in college in the U. S. He writes "I hope to have the pleasure of seeing you, Dr. Bomberger, Byrd, Broughton and others of my professors and college mates."

Mr. Sam. Regester, son of one of our former Presidents of old M. A. C. is now located at Beaver Dam, Va. He writes that he is glad to re-establish connections with his Alma Mater and plans to attend the meeting in June.

Miss Helen G. Beyerle is now with the Philadelphia Inter-State Milk Council, Philadelphia, Pa. Her friends can address her at 219 N. Broad St., Philadelphia Pa.

Mr. Charles Geist, '24, visited the Institution on April 24th. He states that it was good to put his feet on the old soil.

Herman Massey, '14, is with the Victor Phonograph Co. and living at 1466 - 60th Ave., Oakland, Cal. He is married and has three children.

## ANNUAL FIELD DAY PLANS BEING MADE.

Maryland is completing plans for its annual field day to be held in the Byrd Stadium on Saturday, May 5. It promises to eclipse any previous event of its kind.

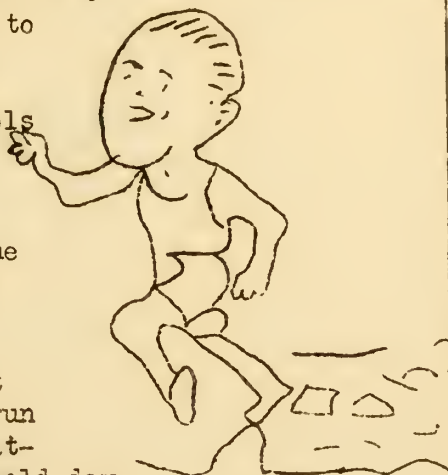

Entry blanks have been sent to the schools of Maryland, D. C. and N. C. for the South Atlantic Inter-Scholastic Championship Meet which will be a feature of the occasion.

Thirteen events for the open phase of the program and five closed to county high schools of the State will mark the Old Line Games.

A varsity lacrosse battle with Navy, a tennis match with Johns Hopkins and a dual meet with George Washington, the last affair to be run concurrently with the scholastic meet, is the attractive card that has been arranged for the field day.

Interscholastic title events will be: 100, 220 and 440-yard dashes, 880 yard run, mile, 120-yard high and 220-yard low hurdles, 12 pound shot put, high and broad jumps, javelin and discus throws and pole vault.

A specially designed silver cup will be awarded to the schools scoring the most points in their respective classes. Gold watches will be awarded to the two athletes who score the most points in their respective classes.

## DR. T. B. SYMONS GIVEN SURPRISE RECEPTION BY ASSOCIATES.

Dr. T. B. Symons, Director of the Extension Service, who has served the University of Maryland and his State in various capacities for 25 years, was honored at a surprise reception given at the K.A. Fraternity House on Friday, April 13th.

When the gathering was called to order, Dr. W. T. L. Taliaferro made the address to the honored guest and presented him with a chest of silver. Replying Dr. Symons expressed his deep appreciation of the honor conferred upon him.

Among those present were Dr. Symons' mother and father, Henry Holzapfel, Jr. of the Board of Regents, and Mrs. Holzapfel, Mr. and Mrs. J. Enos Ray, C. W. Warburton of the U. S. Department of Agriculture who had with him Extension men from the far Western states, H. C. Whiteford of Harford County, Dr. F. B. Bomberger, members of the Extension Service force, members of the faculty, a number of friends in College Park and vicinity and a large number of County Agents.

Other members of the Board of Regents and President Pearson, who was called to New York suddenly, sent their regrets for having previous engagements and wrote letters congratulating Dr. Symons and wishing him well for the future.

MEET ME AT COLLEGE PARK JUNE 1ST.

Let the above be the slogan for each and every one of us. The time has come for us to have a real Alumni Day at the University. The University authorities and the Alumni Board have agreed to make Friday, June 1st, an outstanding day for Alumni functions.

On the following page are given the tentative plans and events for the day and also a tentative program for the Annual Meeting of the Association.

Will you and you not cooperate with your President and officers in their effort more adequately to emphasize the importance of our Annual Alumni Day at the University and particularly to make our annual meeting

a serious minded business meeting? This is the aim of your Board this year and we are counting on every Alumnus to do his part toward making the day and meeting a success.

Decide now, if you have not already done so, to donate June 1st to your University and be on hand early to enjoy the fellowship and friendliness of class mates and college mates and thus contribute your part to the importance and dignity of Alumni Day at the University.

WE'LL BE LOOKING FOR YOU.

DON'T DISAPPOINT US.

UNIVERSITY OFFICIALS TO MAKE JUNE 1ST OF  
SPECIAL SIGNIFICANCE TO ALUMNI.

PROGRAM FOR THE DAY

- 9.30 A. M. - 10.30 - Sophomore-  
Freshman Tug of War (At Paint  
Branch)  
10.30 - Annual Meeting Alumni Assn.  
1.00 P. M. - Special Luncheon for  
Alumni and Senior Class.  
2.30 - Ceremony Marking Northeast  
Corner Old Main Building (Bar-  
racks destroyed by fire 1913)  
3.00 - The Passing of Class Tra-  
ditions at the Ivy Planting  
Ceremony - Senior and Junior  
Classes.  
Faculty and Alumni  
3.30 - Special Tour of Campus and  
Buildings for Observation of  
New Developments.  
4.00 - Class Reunions - Meeting  
Classes designated for reunions  
this year - '86, '87, '88, '89;  
'05, '06, '07, '08; '24, '25,  
'26, '27, '28.  
4.00 - 6.00 Tea Dance - Given by the  
Senior Class in honor of Alumni  
Ritchie Gymnasium.  
6.30 - Class Reunion Dinners.  
9.00 - 1. A. M. - June Ball -  
Ritchie Gymnasium.

HEADQUARTERS.

Alumnae - "Y" Hut and Rest  
Room, Second Floor,  
Agricultural Building.

Alumni - Extension Service  
Offices - First Floor  
Agricultural Building.

PROGRAM FOR ANNUAL MEETING

- (Meeting to be held in Lecture Hall,  
Third Floor, New Chemistry Bldg.)  
10.30 A. M. - Call to Order - Pres.  
J. Hanson Mitchell.  
Minutes of last meeting  
10.35 - Report of Secretary-Treasurer  
T. B. Symons.  
10.45 - Annual address of President  
J. Hanson Mitchell.  
10.55 - Progress of the Washington  
Group of Alumni  
J.J. Betton, Chairman  
11.00 - Progress of Terrapin Club  
E. F. Zalesak, Pres.  
11.05 - Report of Alumni Representa-  
tives on Board of Regents  
W. W. Skinner  
Henry Holzapfel  
Discussion.  
11.30 - New Developments in Athletics  
H. C. Byrd, Director  
11.40 - Old Business.  
New Business.  
Report of Special Finance  
Committee - Chas. Linhardt,  
Chairman.  
Discussion.  
12.10 - Report of Auditing Committee  
R. V. Truitt and H.R. Shoemaker  
12.15 - Report of Nominating Com-

## CLASS REUNIONS

### FOLLOWING CLASSES LISTED

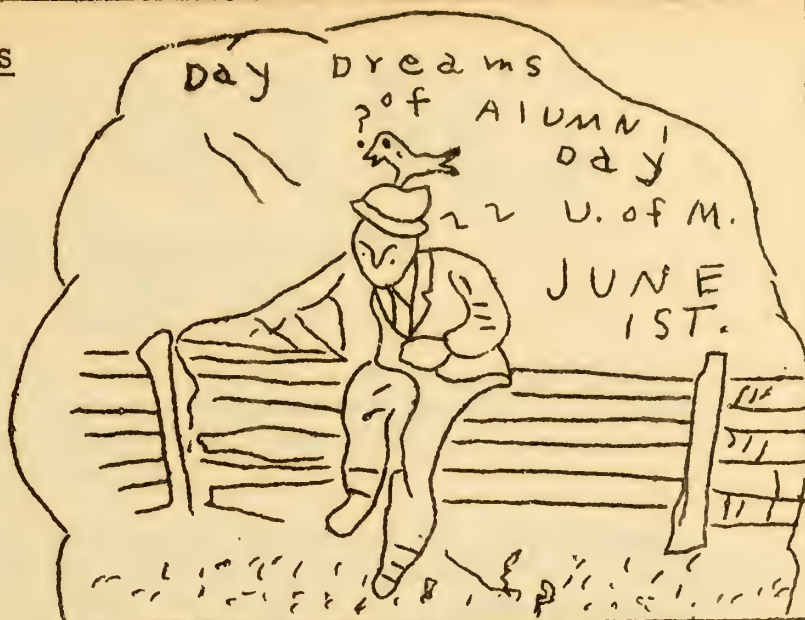

#### FOR REUNIONS.

'86, '87, '88, '89;

'05, '06, '07, '08;

'24, '25, '26, '27

and '28.

### '06 EXPECTS TO HAVE AT LEAST SIX OUT OF TEN LIVING MEMBERS AT U. OF M. ON JUNE 1ST.

J. J. T. Graham, '06, Glendale, Md., writes "I am glad to say that the Class of '06 expects to have a good representation present on June 1st. We have at this time only ten living graduate members. I am counting on having at least six out of these present and hope that possibly some of the others may be able to come also.

"I am personally looking forward to having an enjoyable time as I expect to see many boys in the various classes that I have not seen for many years."

### '07 IS MAKING PLANS FOR ITS CLASS REUNION.

John P. Mudd, Sec'y., Class '07, states that the following Big Boys have definitely committed themselves to be at the University on June 1st:

Nairne Bewland, Rat Harper, Hannibal Hatton, Ed. Holloway, Elijah Linnell, Harry Williar, Alex. Cockey and John Mudd.  
HERE'S HOPING '07 WILL HAVE A 100% TURNOUT.

### '08 CLASS REUNION.

All roads lead to College Park for the members of the '08 Class to attend their TWENTIETH ANNIVERSARY celebration on Friday, June 1.

The officers of the class are busy making arrangements for a big day and a program such as has never been arranged by any class. Ever since its graduation the members of the '08 Class have kept in touch with each other and a 100% attendance is expected.

## GREAT PERFORMANCE BY LACROSSE

### TEAM

BY WM. H. HOTTEL.

As this issue of the Log went to press all sporting interest of the Old Line Alumni, students and faculty was centered in the lacrosse game between Maryland and Hopkins at Homewood Field in Baltimore on Saturday, May 26.

Maryland will go into the contest as the only unbeaten college team in the country and a victory would give it the collegiate championship and a fine chance to be the U. S. representative in the Olympic games at Amsterdam. If Maryland should be beaten it still will be in the running for the Olympic trip with Army, Navy, Rutgers, Mount Washington and possibly Syracuse.

Mount Washington of Baltimore is the only club team with a clean slate and should Maryland down Hopkins it appears probable that it will play the clubmen for the right to cross the "pond".

Among the other notable recent happenings was the winning of the Southern Conference Shotgun by Earl Zulick, who heaved the missile the record distance of 45 feet, 9 $\frac{1}{2}$  inches; a new Maryland broad jump mark by Capt. Henry (Andy Gump) Matthews of 22 feet, 8 $\frac{1}{4}$  inches, and new time for the two miles by Alfred Myers of 10 minutes, 17  $\frac{1}{5}$  seconds.

Maryland's Varsity Ball Team, a green outfit at the start, also came to life and won four of its last six games.

Two factors that augur well for the future too, was the work of the Freshman Lacrosse Team, under Ed Smith, former Old Line center, and the showing of Bunt Watkins yearling ball team that has won six of seven contests and will send some clover players up to next season's varsity.

In connection with the success of the Varsity Lacrosse Team it might be mentioned that Jack Faber, the coach, is the youngest mentor in the game. Faber, who also was a basketball star, just finished playing for Maryland last year. He has his B. S. and M. A. and is teaching bacteriology. He is being helped by Ivan Marty, the best defense man ever to play the game in the U. S. and Lieut. Joe Burger, another former Old Line star. They are giving particular attention to the defense.

Maryland's squad, too, is the best experienced of any of the leading combinations of the country, as six of the regular players are performing on the Varsity for the first season and two of them did not take up the game until this spring.

### MARYLAND'S LACROSSE RECORD.

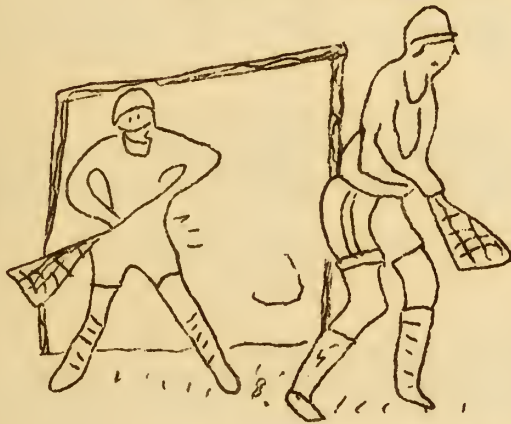

Maryland, 4; L'Hirondelle Club of  
Baltimore, 0 (Practice Game)  
Maryland, 10; Randolph-Macon, 1.  
Maryland 12; Harvard, 2  
Maryland, 16; Georgia Tech, 3.

Maryland, 17; Virginia, 1.  
Maryland, 7; Colgate, 4  
Maryland, 7; St. John's Col-  
lege of Annapolis, 2.  
Maryland, 3; Naval Acad., 2.  
Maryland, 8; Princeton, 3.  
Maryland, 15; Lehigh, 2.

May 26 - Johns Hopkins at Homewood.

### THE MARYLAND-NAVY LACROSSE GAME - SAT., MAY 5.

To an old timer the Lacrosse Game between our stalwart

stickmen and those of the Navy was a thrill. It nearly approached the thrill one gets from viewing one of our most important football games. The game was well played. Every man was on his toes and the game as a whole was a classic. Maryland won by a score of 3 to 2, but words fail to convey the crucial moments, the hilarity and the satisfaction of the fans to observe the triumphant Maryland team win the match over the gallant Navy contingent.

It was some game. The performance of the members of the Maryland team was such as to reflect great credit upon the coach, Faber, the members of the team and the Institution they so proudly represented.

Many Alumni from all parts of the State were present.

### WANTED - PHOTOGRAPH OF MR. JOHN GREEN

We are very anxious to secure a photograph of "Johnie" Green who so ably managed the dining room service at the Institution during the time that many of us passed through the old College. Many of the Alumni will remember Mr. Green for the innumerable kindnesses he always extended the student body. It is thought that perhaps some one may have a good snapshot from which an enlargement could be made.

RAIN OR SHINE,

I'LL BE ON TIME

# OUR ALUMNI

May 7th, the Annual Field Day, brought a large number of the Alumni back to College Park. A very good one-mile relay team could have been picked from the officials. "Tal" Speer and "Untz" Brewer, who ran on the 1916 team, were inspectors as was also Roger Whiteford of the 1927 team. For anchor man there was Joe Endsloew of the '25 and '26 teams who had several prodigies from Dublin High School competing. Other Alumni who assisted in putting the meet across were Supplee, Cory, Axt, Broughton, Shipley and Hoshall.

"Bill" McDonald, who is teaching at Frederick High School, was one of the happiest men in College Park as his team took home the silver cup, the county team trophy.

"Mike" Stevens brought a man up from Suffolk High School to compete in the dashes.

On the bench during the Lacrosse Game were Ivan Marty and Joe Berger who have been helping Jack Faber with his Miracle Team. Of course Austin Diggs and Zalesak, who have not missed a lacrosse game this year, were enjoying themselves to the fullest extent.

The placing of Dr. Bomberger on the Eastern Shore has not in the least interfered with his regular attendance at all athletic contests and "Old Faithful", "Billy" Groff was there to keep him company. As was to be expected National legislative matters could not keep Congressman "Bill" Cole away on such a day. His business partner and brother, C. Walter Cole, was also there with the Carroll brothers, Bill and Morrison.

This publication is not large enough to mention all who were here as they came from all corners of the State.

"Joe" McGlone and "Tatter" Helbig (nee Stevens) represented the mountain district, "Dumps" Langrall and "Um" Brown, the Eastern Shore and Peck Clark and Dorsey Gray, Southern Maryland.

Even if Maryland had not been so victorious the Field Day would have been well worthwhile for bringing so many good fellows (this includes the ladies) together for a short reunion.

## MEMBERS OF ALUMNI COUNCIL- 1927-28

## ANNUAL MAY DAY FESTIVITIES PUT ON BY COEDS AT THE UNIVERSITY.

The lawn of Gerneaux Hall was a beautiful scene when the girls of U. of M. staged their Annual May Day event. Characters from Mother Goose Land danced and frolicked on the green before the Queen, Miss Grace Laleger. None of Mother Goose's children were omitted and from Little Jack Horner to the Old Woman in the Shoe, all played their parts well.

A number of Alumnae were present, among them being Mrs. Geary Eppley (Elizabeth Flenner) and Mrs. Sterling Newell (Esther Williams)

## LIEUTENANT AND MRS. ROBERT YOUNG VISIT UNIVERSITY.

Lieut. and Mrs. Robert Young, and their little daughter, Connie, were entertained at the Sigma Delta House at dinner recently.

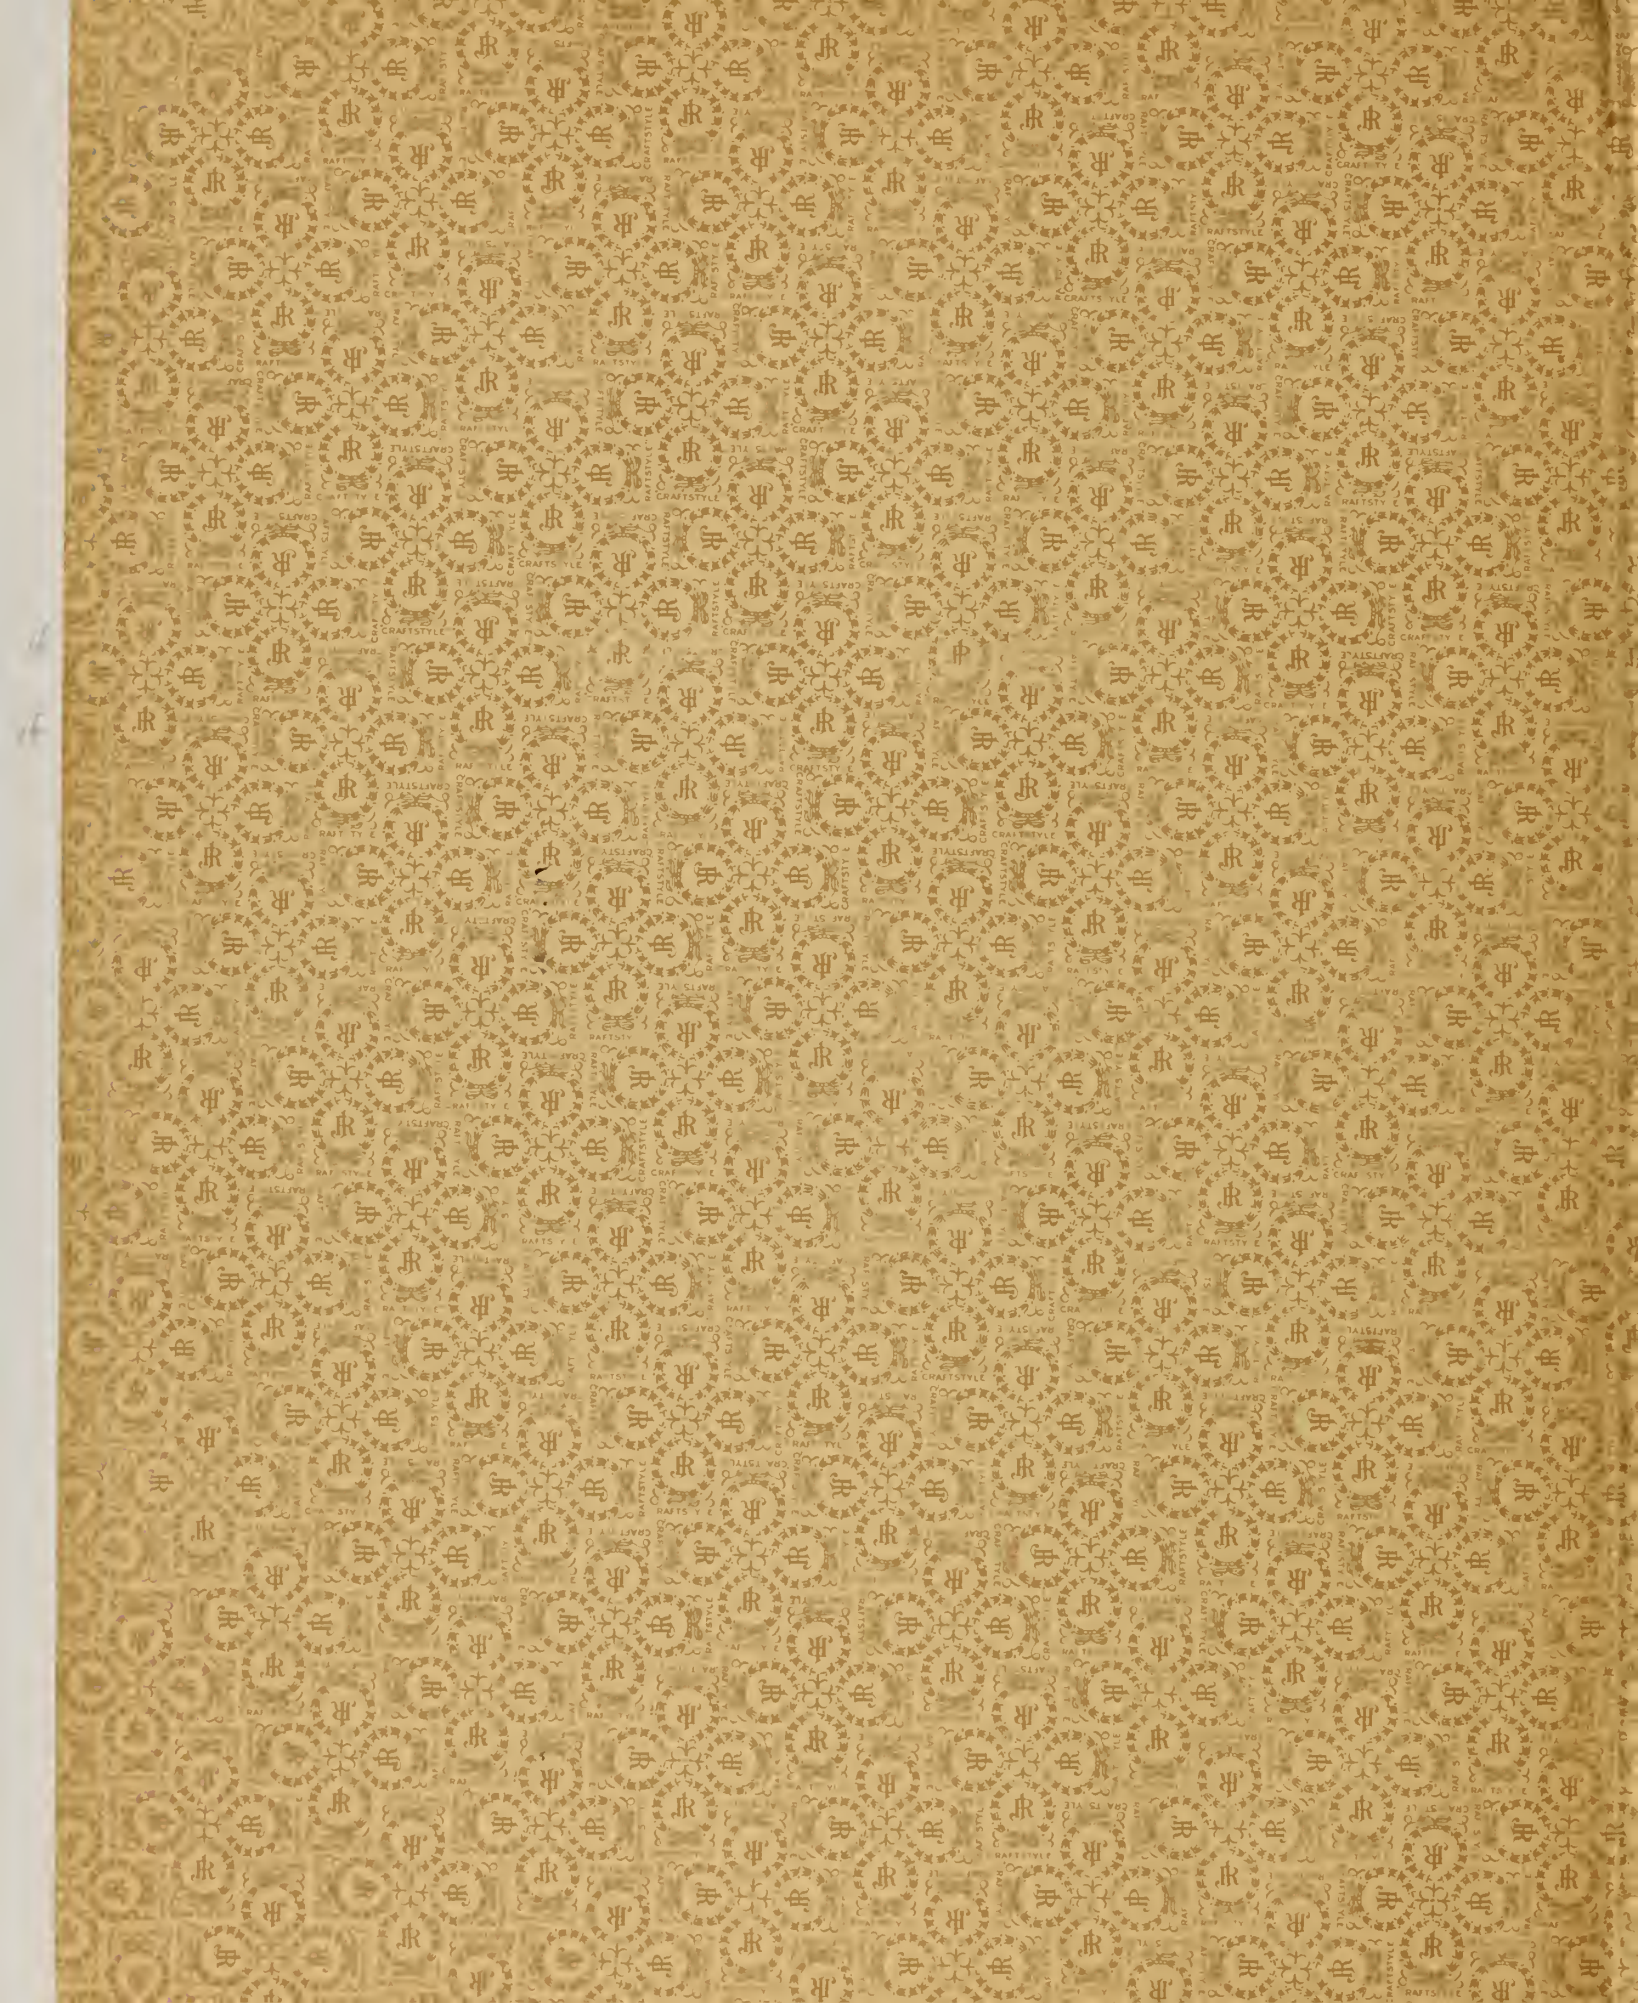

## VARSITY RACKETERS

### WIN TWO MATCHES

Strengthened by the addition of Kurland from the School of Pharmacy in Baltimore, the Maryland Team won two matches recently, defeating Hopkins 4 to 3 and Virginia Poly 7 to 1.
